Custom Flex Suction Mount

For 7"-14" Tablets

Easily adjusts for horizontal or vertical views

Custom Flex Wall Mount

This flexible, ultra-modifiable tablet mount employs a nexus of adjustment points to give you virtually infinite display options. The arm's 5 joints and limb segments can be flexed to achieve any angle, or even removed entirely for a shorter mount. Tension-locking ball socket joints at the stand base and head give even further angle adjustability, while the tablet holder itself rotates 360 degrees for portrait and landscape orientations. The powerful suction base adheres to any flat surface, making this mount a perfect fit for offices, classrooms, conference rooms, and more.
