Hyperflex Security Kiosk Stand For Tablets

Easily adjusts for horizontal or vertical views

Hyperflex Security Kiosk Stand

The two words best used to describe this product are “secure” and “convenient.” The enclosure’s heavy-duty aluminum exterior protects your device from wear-and-tear, while the sturdy lock prevents theft. Meanwhile, the soft rubber grips on the interior keep your device cozy and scratch-free. With the hollow stand, you can invisibly route all the device’s cables directly through the stand itself, creating a clean, professional look. Two 360-degree swivels – one at the base and one at the mount – make the Hyperflex perfect for personable point-of-sale transactions. For added security, you can use the included galvanized steel locking cable to doubly secure your device by locking one end directly to the stand and tethering the other to any nearby fixture.

Features:

- Heavy-duty locking enclosure protects tablet from theft
- Smooth front to back angle adjustment, perfect for point of sale transactions
- 360-degree swivel at base
- 360-degree enclosure rotation for portrait and landscape displays
- Metal base with scratch and slip resistant rubber grips
- Optional steel security cable tethers stand to any permanent fixture
- Clean cable routing through hollow stand neck
