

Hyperflex Security Kiosk Stand w/ Digital Password Combination Security Enclosure

"For iPad 10.2 (7th-9th gen), iPad Pro 10.5, iPad Air Gen 3 and more."

PAD-HSKSBDC

Hyperflex Security Kiosk Stand w/ Digital Password Combination Security Enclosure

This versatile desk mount with attractive digital combination security tablet enclosure is the perfect stand for use in retail, restaurants, coffee shops, schools, hospitality desks, check-in stations, and more. The sturdy base can be permanently mounted to any horizontal surface but is also heavy enough for use without screwing it down. The enclosure's digital lock provides clear, visual protection against theft. Instead of easy-to-misplace keys, this lock opens with a programmable 4-digit code. To charge the lock, connect the included cable and plug directly into the wall. The battery takes approximately 2 hours to charge, and lasts up to 3 months if used regularly. The stand itself features full 360-degree rotation, making ideal for retail transactions. The VESA plate also rotates, allowing for use in either portrait or landscape orientation. Secure the stand with an included 3.8' security cable lock. All cables and charging cords may be neatly routed through the center body. Compatible with iPad 10th Gen 10.9", iPad 10.2-inch (7th, 8th, 9th Generation), iPad Pro 10.5, and iPad Air Gen 3, and most other 9.7-11" tablets by special order request.
