

Triple-Screen Adjustable Kiosk with Universal Security Enclosures

For iPad 10.2-inch 8th Gen, 11-inch iPad Pro 2020 and More

PAD-PARAMULTI

Triple-Screen Adjustable Kiosk

CTA Digital's Triple-Screen Adjustable Kiosk with Universal Security Enclosures comes ready to serve! It creates an instant, up to three-tablet tower, ideal for use as a point-of-sale unit for multiple food delivery services or even warehouse inventory management. A heavy base holds a center support can be adjusted up to a 30 degree angle for optimal viewing. The top third of the support hinges to create an instant two-sided station. Height adjustments allow the space necessary to use tablets in either portrait or landscape modes. This kit comes with 3 of CTA's best-selling Paragon Enclosures. The durable metal enclosures hold tablets from 7-12-inches high, feature a powerful lock-and-key security system, and have enough room to easily route cables through the interior to keep tablets charged at all times. The enclosures mount to the kiosk via standard VESA 75 x 75 and 100 x 100-millimeter plates. One or more can easily be switched out to accommodate larger tablets.

Features:

- CTA Digital's Triple-Screen Adjustable Kiosk with Universal Security Enclosures comes ready to serve food delivery services, restaurants, and even warehouses.
- Versatile heavy-duty food delivery service management tower with 3 heavy-duty locking enclosures
