TABLET CASE FEATURES

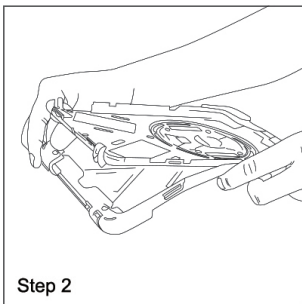

INSTRUCTIONS

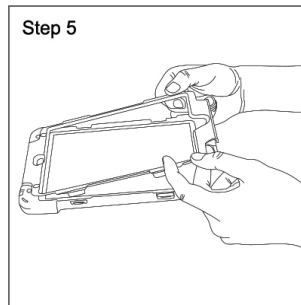

STEP 1:
Peel away plastic frame starting with the bottom of the case as shown to the left. Work your way around the perimeter, unclipping the frame where there are clips.

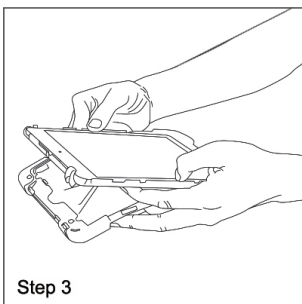

STEP 4:
Starting at a corner, re-apply silicone jacket around the back portion of the hard case

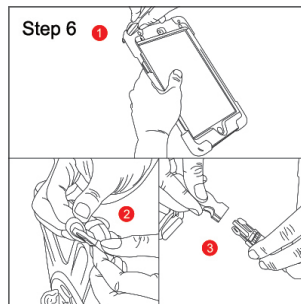

STEP 2:
Starting at a corner of the case, peel away the silicone jacket. Work your way around until only the back half of the hard case remains

STEP 5:
Re-insert the front frame back on. Make sure you go around the perimeter of the case and clip all the clips securely and tight.

STEP 3:
Insert tablet into the back portion of the hard case

STEP 6: (optional)
If you have the corresponding shoulder strap (sold separately), insert the ends into the strap holes. Then tie them up and clasp the front as shown to the left.
