Security Cable Locking Desk Mount (White)
For Tablets and Tablets with Cases up to 1"

PAD-SLDMW

Security Cable Locking Desk Mount

This durable desk mount screws directly into desks, tables, or countertops to create a sturdy tablet stand. A cable lock anchors your device to provide a secure environment for your tablet, making this stand ideal for retail, hospitality, home office, pop-up shops, and more. To lock your device, simply attach the loop end of the steel cable around a table leg, pipe, or other secure anchor point. Then, affix the locking mechanism to the rear of your tablet or enclosure. With a turn of the key, your tablet is locked and secure. Foam pads protect the back of your device from scratches. This mount works with almost any device, with or without cases up to 1 inch thick.
