## INSTRUCTIONS:

### 1. Setting up Tablet with Tablet Holder

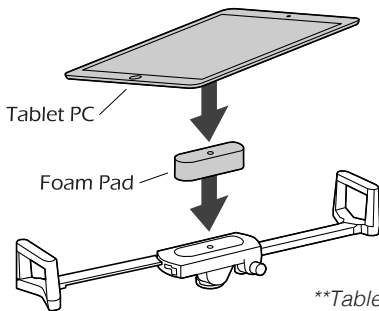

1. Press and hold on the release button to unlock the tablet holder

3. Adjust the holder to fit the tablet after it's placed in

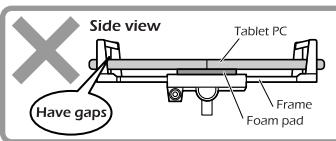

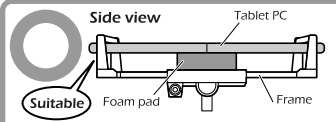

2. Insert the tablet into the holder with the right foam piece

**\*\*Tablet Not Included. Just shown for example purposes.**

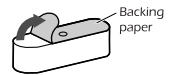

#### Determine the correct foam needed for your specific tablet

Use the sponge to adjust the thickness between the tablet and the stand.

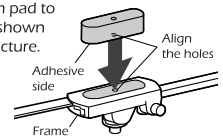

#### Paste method

1. Tear off the backing paper on the foam pad.

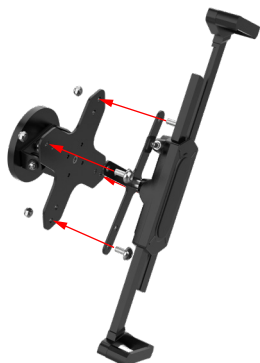

2. Stick the foam pad to the frame as shown in the right picture.

### 2. Mounting Holder to VESA Base

1. Align the VESA holes of magnetic mount with the tablet holder. Using the provided too, rotate and screw in the screws from the front side as shown to the right. Align the hex nuts from behind with the screw. While screwing in the screw, hold the hex nut with your fingers from behind until tightly fastened.

### 3. Angle Adjustments

**\*\*Tablet Not Included. Just shown for example purposes.**

1. Tilt adjust your magnetic mount as needed. Simply rotate the hinge north and south or east and west (as shown in image to the right) pending how you would like to tilt your screen.
