# Add-On Gooseneck

For Cell Phones

## Add-On Gooseneck

CTA Digital's Add-on Gooseneck for Cell Phones gives hands-free cell phone use for teleconferencing, video recording, still photography, or vlogging. A generous 35-inch gooseneck attaches to the top of any of CTA's mobile floor stands, creating a steady, yet smooth rolling base for on-the-go use. The universal cell phone holder rotates for use in both portrait and landscape orientations, all at a wide array of flexibility that capture exactly the right angles for viewing or content capture. The cell holder safely cradles and grips any phone from 3.5 – 6-inches high, and is thick enough to accommodate most phone cases.

*\*\*Phone Not Included and for Illustration Purposes*

## Features:

- 35-inch flexible gooseneck attachment with universal cell phone holder screws directly into the tops of CTA Digital's line of mobile floor stands and pole extenders
- The cell phone holder securely cradles phones in place with rubber padded grips
- Compatible with cell phones from 3.5-6-inches high and many phone cases
- Gooseneck heads rotate 360-degrees and tilt from side to side, allowing for use in portrait or landscape orientation with multiple viewing angles

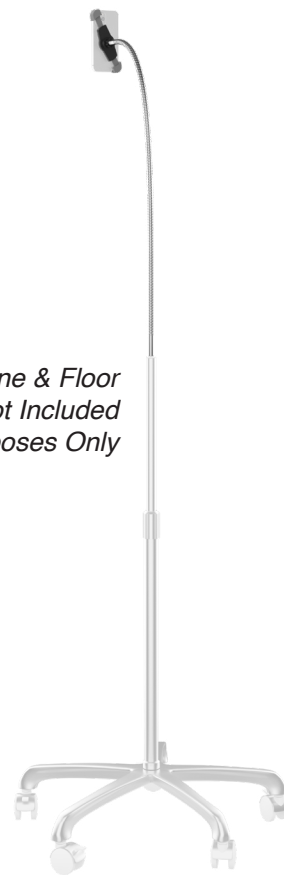

## Specifications:
