Wall-Mounted Charge Station Security Cabinets for Tablets

Wall-Mounted Charge Station Security Cabinet

Anybody working with a large number of tablets, Chromebooks or laptops knows their two main requirements: security and safety. The Wall-Mounted Charge Station Security Cabinet for Tablets offers both, with an ultra-secure three-point locking system protecting a 12 charging slots capable of simultaneously protecting and charging your devices. The cable clip design allows for the simplest cable management. The compatible design will fit laptops, chromebooks and tablets up to 13" and includes extra space for each power adapter. And this charge station's devotion to security doesn't stop with the sturdy lock: a built-in circuit breaker protects your valuable stock of tablets from dangerous power-surges, meaning you can let them charge overnight without worry. The Wall-Mounted Charge Station is compatible with the FCC, CE, UL2442 and even the new UL62368-1 safety regulations.
