

## GENERAL INSTRUCTIONS

### Display of parts:

Floor Protectors  
X 20pics

- Please take out the floor protector and put it on the tip of the rod until it is completely tightened at the bottom.
- Once tightened, the rod is ready for use.

### WARNING

These floor protectors are designed specifically to prevent floors from being scratched by the tips of metal rods. When inserting or removing the metal rods, please ensure that they are attached tightly, so as to prevent your dog from accidentally swallowing them. With the same concern, if you notice any breakages of the pieces, please remove and discard immediately. This product is not a toy; small parts are unsuitable for children, so please keep out of reach.
