

## GENERAL INSTRUCTIONS

### Display of parts:

Muffer Tubes  
X 32pcs

Please take out the muffer tubes and insert them into the rings. The installation is complete when you hear a click. After that, they are ready for normal use.

### ⚠ WARNING

These muffer tubes are designed specifically to reduce the noise from the connection of the dog playpen. Please ensure that they are attached tightly when in use, so as to prevent your dog from accidentally swallowing them. With the same concern, if you notice any breakages of the pieces, please remove and discard immediately. This product is not a toy; small parts are unsuitable for children, so please keep out of reach.
