

MILK LANCE

FOR FULLY AUTOMATIC
COFFEE MACHINES

Coffee Enjoyment

MELITTA® MILK LANCE

CONVENIENT AND HYGIENIC FOR PERFECT FROTHED MILK

The Melitta® milk lance is innovative and dependable, and enables you to prepare frothed milk at the perfect temperature. It couldn't be easier to use: Simply put the milk lance in the milk carton, connect the milk tube from the fully automatic coffee machine to the milk lance and you can froth up your milk as usual. Especially practical - you can use the milk as normal, even with the milk lance in the milk carton.

Cleaning the milk lance could not be easier - the matt silicone housing and the stainless steel lance can be dismantled in a few simple steps and then cleaned.

Since the milk lance is compatible with all Melitta® fully automatic coffee machines, a great number of coffee lovers will be able to enjoy coffee specialities with milk.

The Melitta® milk lance - simply perfect frothed milk.

HIGHLIGHTS

Easy to use

Simply insert the milk lance into the milk carton, connect the milk tube and froth up the milk as usual.

Advanced Milk Flow Technology

The perfectly controlled milk flow makes it easy to prepare fine-pored, frothed milk at the perfect temperature.

Maximum hygiene

The milk lance consists of three parts which are easy to dismantle and clean.
