

# RESTORING A FAILED FILTER

- DPF Restoration
- DOC, SCR, EGR Cleaning
- Replacement DPF
- Clamps
- Gaskets
- Bungs
- Pick Up & delivery

Our customer had taken his DPF to the routine cleaner he had been using and they had failed his DPF and told him it would need to be replaced. Having heard about our restoration service, he decided to try it out.

We performed our Gold Restoration Service and to get the filter to the best results, give it two restoration treatments. Our customer has walked away with a restored filter, it's back on the equipment and is working well.

**WHAT DOES A NEW DPF COST?  
COMPARE THAT TO OUR GOLD SERVICE RESTORATION AT \$399**

## TESTIMONIAL FROM CUSTOMER:

We are a mixed fleet of about 80 trucks that haul dirt and heavy equipment. DPF and DOC cleaning is part of our annual 2000 hr CVIP inspection and PM program. Recently we had a DPF that failed the cleaning process at our regular place we send them to. I sent the DPF to The DPF Company in Calgary to try their ultrasonic gold level to see if they could revive the filter. They ran the filter through twice but were able to get it inside the green level of flow, meaning it passed! The filter was installed back in the truck and back to work! I will definitely be sending The DPF Company more filters and highly recommend them to anyone needing a fast turn around with excellent results!
