

## COB 16W/M RGBW | IP66

POWER FEED - TOP VIEW

POWER FEED - INTERNAL END VIEW

COLOUR	CODE	INGRESS PROTECTION
RGBW	BL-LS-COB16-RGBW-IP66	IP66 - General exterior & interior use. Encased in silicone sleeve. Protection established by use of silicone connections <i>Not suitable for submerged applications</i>

ELECTRICAL & OPTICAL DATA VARIANCE +/- 10%  
SOLD BY THE METRE

LED WATTS	16W/m (4W/m per channel)	COLOUR TEMPERATURE	3000K (white chip only)	MOUNTING	3M adhesive backing A Bright Light approved aluminium profile for thermal management is required
INPUT VOLTS	24V DC constant voltage	CRI	≥90 (white chip only)	CONTROL	Requires 4-channel controller
OPERATING TEMP.	-25°C ~ +45°C	LUMENS	R 104lm/m G 336lm/m B 96lm/m W 344lm/m	PROFILE	Suitable for Baseline 05 / 08 and Highline 01 / 02 / 03 / 04. Also suitable for our Baseline 01 V1 (enquire) <i>This product is not suitable for use with our smaller profiles due to the connector width.</i>
MAX. RUN PER POWER FEED	5 metres	NUMBER OF CHIPS	560 LED/m		
		BEAM ANGLE	180°		
		SOURCE LIFE	50,000 hours		
		WARRANTY	3 years		

ACCESSORIES	CODE
5-CORE CABLE FOR RGBW COB 500MM	BL-LS-COB16-5CCAB
SILICONE POWER CONNECTOR FEED FOR COB RGB IP66 SLEEVE	BL-LS-CS-RGBW-IP66-PC
SILICONE END CAP FOR COB RGB IP66 SLEEVE	BL-LS-CS-RGBW-IP66-EC

CONNECTORS REQUIRE SEALING WITH SILICONE FOR IP66 PROTECTION

POWER FEED

END CAP

WIDTH 17MM × H6MM

### CABLE:

Due to the nature of RGBW COB, the solder pads are smaller than standard ribbon. We strongly recommend the use of our 5-core RGBW COB cable.
