

CONTACT DIM UNIT

CODE

BL-PC-LT70112A

FUNCTION

- Single channel PWM output dimming by momentary contact switch (not included)
- Compatible with a range of Push Mechanism switches; contact Bright Light for more information
- This product does not isolate the 230V feed to the power supply

OUTPUT CURRENT	MAX. LOADING	VOLTS
1 × 12A channel	60W	5V DC
	144W	12V DC
	288W	24V DC

DIMENSIONS	W44 × L175 × H30mm
HOUSING	PVC casing
MOUNTING	2 × mounting tabs
WARRANTY	5 years

COMPLIANCE 

OPERATING TEMP.	-30°C ~ +55°C
INGRESS PROTECTION	Indoor use only
CONNECTION METHOD	Concealed screw terminals
CONTROL	Analogue 0/1-10V DC signal from automation system or momentary contact switch

MAX. DISTANCE FROM POWER SUPPLY
Recommended under 10 metres
For specific projects contact Bright Light
