Please read these instructions carefully before commencing installation and retain them for future reference. It is recommended that the luminaire is installed by a qualified electrician. All electrical installations must be carried out according to current electrical regulations.

These products must not be modified. If any modification is made, it may invalidate the warranty and render the product unsafe.

INSTALLATION

SAFETY NOTES

- Switch off the electricity at the mains before commencing installation.
- If a fuse box is used, remove the appropriate circuit fuse to avoid accidental switching on of the mains supply.
- Connect to a 220-240V AC supply in accordance with NZ regulation.
- Make sure all connections are tight with no loose strands.
- Ensure fire regulations are not breached when fitting downlight.

WARNING

- Indoor use only.
- Please ensure the packaging is disposed of safely.
- If any cable is defective, do not use.
- Only a registered electrician should install this product.
- Do not look directly at the lamp.
