

NEON is perfect for commercial applications where high-quality lighting is required. Modern LED technology offers a durability that surpasses the traditional glass product, injection moulded connections offer up to IP68 protection, and the silicone casing provides UV and flame resistance while distributing uniform light.

On occasion, a project asks for more – Bright Light proudly introduces NEON XTRA, a highly specialised, application specific range of Neon products designed for niche applications.

IN-GROUND NEON

Neon Xtra Luxpave™ offers an unparalleled choice for LED in-ground applications, boasting an unrivalled dot and glare-free lighting solution that is resistant to vandalism, UV, water, corrosion, and slipping.

TRANSPORTATION NEON

Flexglo™ F2222 and Flexglo™ F2219 can illuminate a modern city with vitality, creating an iconic nightscape that takes centre stage. Whether it's bridge lighting, metro lighting, tunnel lighting, or more.

SAFEGLO™ EX LED

Safeglo™ Ex LED Neon is designed for indoor and outdoor hazardous environments in petroleum, chemical, mining, and other industries. Its silicone extruded housing acts as insulation against external ignition sources.

THERMGLO™ SAUNA

Neon Sauna is specifically designed to illuminate saunas and steam rooms both safely and with style. Engineered to withstand temperatures of up to 95°C and ensure resilience in environments with 100% relative humidity.
