NEON XTRA

LED NEON produced by Clear Lighting and distributed by Bright Light, is a broad range of silicone encapsulated LED ribbons. NEON is perfect for commercial applications where high-quality lighting is required. Modern LED technology offers a durability that surpasses the traditional glass product, injection moulded connections offer up to IP68 protection, and the silicone casing provides UV and flame resistance while distributing uniform light.

On occasion, a project asks for more – Bright Light proudly introduces **NEON XTRA**, a highly specialised, application specific range of Neon products designed for niche applications.

The Neon Xtra range includes:

- **Luxpave™** – In-ground, drive-over luminaire systems
- **Transportation Lighting** for applications like road bridges
- **SafeGlo™** – Hazardous environment applications
- **ThermGlo™** – Designed for Sauna & steam rooms
- **Panoray™** – Freebend, high-powered wall washer luminaires

SAUNA THERMGLO™

ThermGlo™ LED Neon is specifically designed to illuminate saunas and steam rooms both safely and with style. Utilising a specialised LED chip and silicone casing, ThermGlo™ LED Neon is engineered to withstand temperatures of up to 95°C, perfect for traditional sauna which typically range from 70°C to 95°C.

ThermGlo™ boasts an impressive IP67 rating, ensuring resilience even in environments with 100% relative humidity, making them an excellent choice for wet locations including spas and steam rooms.

With flexibility and extended continuous running length, ThermGlo™ Neon can be seamlessly installed on ceilings, benches, backrests, or corners and easily blend into its surroundings, contributing to an understated yet sophisticated aesthetic.

FEATURES

Safe & Reliable

The on-board constant current design helps to control temperature for extra heat protection.

Heat Resistance

Engineered to withstand temperatures of up to 95°C.

Versatile Installation

ThermGlo™ can bend either horizontally or vertically.

Ready for Installation

Fully encapsulated LED and IP67 injection-moulded connectors allow for quick & easy installations.

Economic performance & maintenance

Compared with traditional sauna luminaires ThermGlo™ Neon offers light efficiency and an increased lifespan.

Colour Options

Along with standard white light, ThermGlo™ offers options for Tuneable White, RGB, and RGBW.

Installation Cautions

- Keep at least 80cm away from the steam outlet or heat source area.
- Do not place in an enclosed space, as air circulation is needed.
- Do not touch metal components directly to prevent burns.
