

## SAFETY DATA SHEET

Section 1. Identification	
Product identifier	EpoxyStarz Medium Viscosity – Part B
Other means of identification	EpoxyStarz Medium Viscosity B
Recommended use and restrictions on use	Floor coating
Supplier informations	2271 Cornell Ave, Montgomery, IL 60538, United States info@specialtyproductsdevelopmentgroup.com
Emergency telephone number/restriction on use	Canada – CANUTEC 24-hour number 613-996-6666
Section 2. Hazard identification	
<b>Classification of hazardous product (name of the category or subcategory of the hazard class)</b>	
Acute toxicity oral (Category 4) Skin corrosion (Category 1) Serious eye damage (Category 1) Skin sensitization (Category 1) Specific target organ toxicity – Single exposure (Category 3) Reproductive toxicity (Category 1) Hazardous to the aquatic environment – Acute & Chronic (Category 1)	
<b>Information elements (symbols, signal words, hazard statements and precautionary statements of the category/subcategory)</b>	
 <p><b>Danger</b></p> <p><b>H302</b> Harmful if swallowed.  <b>H314</b> Causes severe skin burns and eye damage.  <b>H317</b> May cause an allergic skin reaction.  <b>H335</b> May cause respiratory irritation.  <b>H360</b> May damage fertility or the unborn child.  <b>H362</b> May cause harm to breast-fed children.  <b>H400</b> Very toxic to aquatic life  <b>H410</b> Very toxic to aquatic life with long lasting effects.  <b>P201</b> Obtain special instructions before use. <b>P202</b> Do not handle until all safety precautions have been read and understood. <b>P260</b> Do not breathe dusts or mists. <b>P263</b> Avoid contact during pregnancy and while nursing. <b>P264</b> Wash hands/nails/face thoroughly after handling. <b>P270</b> Do not eat, drink or smoke when using this product. <b>P271</b> Use only outdoors or in a well-ventilated area. <b>P272</b> Contaminated work clothing should not be allowed out of the workplace. <b>P273</b> Avoid release to the environment. <b>P280</b> Wear protective gloves/ protective clothing/ eye protection/ face protection. <b>P301 + P330 + P331</b> IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. <b>P312</b> Call a doctor if you feel unwell. <b>P303 + P361 + P353</b> IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water. <b>P363</b> Wash contaminated clothing before reuse. <b>P332 + P313</b> IF SKIN irritation or rash occurs: Get medical attention. <b>P305 + P351 + P338</b> IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. <b>P304 + P340</b> IF INHALED: Remove person to fresh air and keep comfortable for breathing. <b>P310</b> Immediately call a doctor. <b>P308 + P313</b> IF exposed or concerned: Get medical attention. <b>P391</b> Collect spillage. <b>P403 + P233</b> Store in a well-ventilated place. Keep container tightly closed. <b>P405</b> Store locked up. <b>P501</b> Dispose of contents/container into safe container in accordance with local, regional or national regulations.</p>	
Other hazards known	None

Section 3. Composition/information on ingredients		
Chemical name (common name/synonyms)	CAS number or other	Concentration (%)
Epoxy adduct	-	10-30
Benzyl alcohol	100-51-6	< 10
Isophorone diamine	0002855-13-2	10-30
Nonylphenol	84852-15-3	10-30
Polyoxypropylene diamine	9046-10-0	30-60
* Statement - This safety data sheet provides concentration range(s) instead of the actual concentration(s) by weight (except for gases/propellants by volume) considered trade secret(s).		
Section 4. First-aid measures		
Inhalation	IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a doctor if you feel unwell.	
Ingestion	IF SWALLOWED: Immediately call a doctor. DO NOT INDUCE VOMITING. NEVER give anything by mouth if victim is rapidly losing consciousness or is unconscious or convulsing. Rinse mouth thoroughly with water. Have victim drink two glasses of water. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration.	
Skin contact	Causes severe skin burns and eye damage. IF ON SKIN: wash with plenty of water (15-20 minutes). IF SKIN irritation or rash occurs: Get medical attention. Take off contaminated clothing and wash it before reuse.	
Eye contact	IF IN EYES, Rinse cautiously with water for several minutes (15-20). Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention.	
Indication of immediate medical attention/special treatment	In all cases, call a doctor. Also consider the other instructions of present document section.	
Section 5. Fire-fighting measures		
<b>Specific hazards of the hazardous product (hazardous combustion products)</b>		
Carbon oxides and other irritant/toxic gases and fumes.		
<b>Suitable and unsuitable extinguishing media</b>		
In case of fire: Use carbon dioxide, chemical powder agent and appropriate foam to extinguish surrounding products.		
<b>Special protective equipment and precautions for fire-fighters</b>		
During a fire, irritating/toxic smoke and fumes may be generated. Do not enter fire area without proper protection. Firefighters should wear proper protective equipment and self-contained breathing apparatus with full facepiece. Shield personnel to protect from venting, rupturing or bursting cans. Move containers from fire area if it can be done without risk. Water spray may be useful in cooling equipment and cans exposed to heat and flame.		
Section 6. Accidental release measures		
<b>Personal precautions, protective equipment and emergency procedures</b>		
Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should wear the appropriate protective equipment (See Section 8).		
<b>Methods and materials for containment and cleaning up</b>		
Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then place material into a container for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product. Notify the appropriate authorities as required.		

## Section 7. Handling and storage

### Precautions for safe handling

Wear gloves/protective clothing/eye protection/face protection.  
Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers for leaks before handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing dust/fume/gas/mist/vapours/spray. Avoid contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to Section 8.

### Conditions for safe storage, including any incompatibilities

Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10). Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks.

## Section 8. Exposure controls/Personal protection

### Control parameters (biological limit values or exposure limit values and source of those values)

Exposure limits: Dust – PEL-TWA 15 mg/m<sup>3</sup> (total dust) & 5 mg/m<sup>3</sup> (respirable fraction);

### Appropriate engineering controls

Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.

### Individual protection measures/personal protective equipment

Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limits are unknown. Chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be worn during all handling operations. Wear protective chemical splash goggles to prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use.

## Section 9. Physical and chemical properties

<b>Appearance, physical state/colour</b>	Liquid, clear	<b>Vapour pressure</b>	Not available
<b>Odour</b>	Characteristic	<b>Vapour density</b>	Not available
<b>Odour threshold</b>	Not available	<b>Relative density</b>	0.955
<b>pH</b>	Not available	<b>Solubility</b>	Not available
<b>Melting/freezing point</b>	Not available	<b>Partition coefficient - n-octanol/water</b>	Not available
<b>Initial boiling point/range</b>	Not available	<b>Auto-ignition temperature</b>	Not available
<b>Flash point</b>	> 93°C	<b>Decomposition temperature</b>	Heavier than air
<b>Evaporation rate</b>	Not available	<b>Viscosity</b>	Not available
<b>Flammability (solids and gases)</b>	Not available	<b>VOC</b>	Not available
<b>Upper and lower flammability/explosive limits</b>	Not available	<b>Other</b>	None know

## Section 10. Stability and reactivity

<b>Reactivity</b>	Does not react under the recommended storage and handling conditions prescribed.
<b>Chemical stability</b>	Material is stable at standard temperature and pressure.
<b>Conditions to avoid</b>	None known
<b>Hazardous reactions/polymerization</b>	None known
<b>Incompatible materials</b>	Oxidizing materials; Acids; etc.
<b>Hazardous decomposition products</b>	None known

Section 11. Toxicological information	
Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact)	Harmful if swallowed. Causes severe skin burns and eye damage. May cause an allergic skin reaction. May cause respiratory irritation. May damage fertility or the unborn child. May cause harm to breast-fed children.
Symptoms related to the physical, chemical and toxicological characteristics	Skin burn, redness, stinging, pain; Eye burn, redness, tearing; Digestive tract burn; Respiratory tract burn, coughing, shortness of breath, dizziness, drowsiness, nausea and headaches.
Delayed and immediate effects (chronic effects from short-term and long-term exposure)	Skin Sensitization – Possible; Respiratory Sensitization – No data available; Germ Cell Mutagenicity – No data available; Carcinogenicity – No ingredient listed by IARC, ACGIH, NTP or OSHA; Reproductive Toxicity – Possible; Specific Target Organ Toxicity – Single Exposure – Possible; Specific Target Organ Toxicity – Repeated Exposure – No data available; Aspiration Hazard – No data available; Health Hazards Not Otherwise Classified – No data available.
Numerical measures of toxicity (ATE; LD50 & LC50)	CAS 9046-10-0 LD50, Oral- Rat - 2885.3 mg/kg; LC50, Inhalation - Rat - 8h > 0.74 mg/l; LD50, Dermal- Rabbit - 2980 mg/kg; CAS 2855-13-2 LD50, Oral - Rat 1030 mg/kg; CAS 84852-15-3 LD50 Oral - Rat - 1246 mg/kg & LD50 Dermal - Rabbit - 2040 mg/kg; CAS 100-51-6 LD50, Oral - Rat 1360 mg/kg; ATE not available in this document.
Germ cell mutagenicity	Not available
Reproductive toxicity	Not available
Specific target organ toxicity (single exposure)	Not available
Specific target organ toxicity (repeated exposure)	Not available
Aspiration hazard	Not available
Section 12. Ecological information	
Ecotoxicity (aquatic and terrestrial information)	Not available
Persistence and degradability	Not available
Bioaccumulative potential	Not available
Mobility in soil	Not available
Other adverse effects	Very toxic to aquatic life. Very toxic to aquatic life with long lasting effects.
Section 13. Disposal considerations	
Information on safe handling for disposal/methods of disposal/contaminated packaging	Dispose of contents/container into safe container in accordance with local, regional or national regulations.
Section 14. Transport information	
UN number; Proper shipping name; Class(es); Packing group (PG) of the TDG Regulations	UN3267; CORROSIVE LIQUID, BASIC, ORGANIC, N.O.S. (Isophorone diamine; Nonylphenol); CLASS 8; PG III
UN number; Proper shipping name; Class(es); Packing group (PG) of the IMDG (maritime)	UN3267; CORROSIVE LIQUID, BASIC, ORGANIC, N.O.S. (Isophorone diamine; Nonylphenol); CLASS 8; PG III
UN number; Proper shipping name; Class(es); Packing group (PG) of the IATA (air)	UN3267; CORROSIVE LIQUID, BASIC, ORGANIC, N.O.S. (Isophorone diamine; Nonylphenol); CLASS 8; PG III
Special precautions (transport/conveyance)	May also be shipped as a LIMITED QUANTITY in accordance with TDG.
Environmental hazards (IMDG or other)	MARINE POLLUTANT
Bulk transport (usually more than 450 L in capacity)	Possible

Section 15. Regulatory information	
<b>Safety/health Canadian regulations specifics</b>	Refer to Section 2 for the appropriate classification. This product has been classified in accordance with the hazard criteria of the Hazardous Products Regulations (HPR).
<b>Environmental Canadian regulations specifics</b>	Refer to Section 3 for ingredient(s) of the DSL
<b>Safety/health/environmental outside regulations specifics</b>	United States OSHA information: This product is regulated according to OSHA (29 CFR). United States EPA (Environmental Protection Agency) information: 40 CFR Refer to the ingredients listed in Section 3 & Sections 12; 13 & 14. United States TCSA information: Refer to the ingredients listed in Section 3.
Section 16. Other information	
<b>Date of the latest revision of the safety data sheet</b>	November 28, 2023 version 001
<b>Corrections</b>	Complete review
<b>References</b>	Safety Data Sheets from manufacturer/supplier & from Canadian Centre for Occupational Health and Safety, CCOHS.
<b>Other information</b>	As per GHS, category 1 is the greatest level of hazard within each class.
