

# AquaFinish 1K

### **Water based Urethane Protective Coating**

## **SAFETY DATA SHEET**

Section 1. Identification	
Product identifier	Aquafinish 1K
Other means of identification	None
Recommended use and restrictions on use	Coating/finish
Supplier informations	2271 Cornell Ave, Montgomery, IL 60538, United States info@specialityproductsdevelopmentgroup.com
Emergency telephone number/restriction on use	Canada – CANUTEC 24-hour number 613-996- 6666

#### Section 2. Hazard identification

Classification of hazardous product (name of the category or subcategory of the hazard class)

None regulated

Information elements (symbols, signal words, hazard statements and precautionary statements of the category/subcategory)

None

#### Other hazards known

None

#### Section 3. Composition/information on ingredients

Chemical name (common name/synonyms)	CAS number or other	Concentration (%)
Dipropylene glycol monomethyl ether	34590-94-8	1-5
Propylene glycol	57-55-6	1-5
Dipropylene glycol monobutyl ether	29911-28-2	< 2

<sup>\*</sup> Statement - This safety data sheet provides concentration range(s) instead of the actual concentration(s) by weight (except for gases/propellants by volume) considered trade secret(s).

#### Section 4. First-aid measures

Inhalation	IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a doctor if you feel unwell.
Ingestion	IF SWALLOWED: Immediately call a doctor. DO NOT INDUCE VOMITING. NEVER give anything by mouth if victim is rapidly losing consciousness, or is unconscious or convulsing. Rinse mouth thoroughly with water. Have victim drink two glasses of water. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration.
Skin contact	IF ON SKIN: wash with plenty of water. (5-10 minutes)
Eye contact	IF IN EYES, Rinse cautiously with water for several minutes (5-10).
Most important symptoms and effects (acute or delayed)	May cause slight transient respiratory, skin and eye irritations.
Indication of immediate medical attention/ special treatment	In all cases, call a doctor. Do not forget this document.

## Revision: 12-19-23

# AquaFinish 1K

### **Water based Urethane Protective Coating**

#### Section 5. Fire-fighting measures

#### Specific hazards of the hazardous product (hazardous combustion products)

Carbon oxides and other irritant/toxic gases and fumes.

#### Suitable and unsuitable extinguishing media

In case of fire: Use carbon dioxide, chemical powder agent and appropriate foam to extinguish surrounding products.

#### Special protective equipment and precautions for fire-fighters

During a fire, irritating/toxic smoke and fumes may be generated. Do not enter fire area without proper protection. Firefighters should wear proper protective equipment and self-contained breathing apparatus with full facepiece. Shield personnel to protect from venting, rupturing or bursting cans. Move containers from fire area if it can be done without risk. Water spray may be useful in cooling equipment and cans exposed to heat and flame.

#### Section 6. Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should wear the appropriate protective equipment (See Section 8).

#### Methods and materials for containment and cleaning up

Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then place material into a container for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product. Notify the appropriate authorities as required.

#### Section 7. Handling and storage

#### Precautions for safe handling

Wear gloves/protective clothing/eye protection/face protection.

Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers for leaks before handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing dust/fume/gas/mist/vapours/spray. Avoid contact with eyes, skin, and clothing. Keep away from heat, sparks, and flame. Avoid generating high concentrations of dusts, vapours, or mists. Keep away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to Section 8.

#### Conditions for safe storage, including any incompatibilities

Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10). Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks.

#### Section 8. Exposure controls/Personal protection

#### Control parameters (biological limit values or exposure limit values and source of those values)

Exposure limits: CAS 34590-94-8 PEL-TWA 100 ppm; Dust - PEL-TWA 15 mg/m3 (total dust) & 5 mg/m3 (respirable fraction);

#### **Appropriate engineering controls**

Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.

#### Individual protection measures/personal protective equipment

Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limits are unknown. Chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be worn during all handling operations. Wear protective chemical splash goggles to prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use.

## **Water based Urethane Protective Coating**

Section 9. Physical and chemical pro	perties		
Appearance, physical state/colour	Clear liquid	Vapour pressure	Not available
Odour	Characteristic	Vapour density	Not available
Odour threshold	Not available	Relative density	1.04-1.05
рН	7.8-8.6	Solubility	Miscible
Melting/freezing point	Not available	Partition coefficient - n-octanol/ water	Not available
Initial boiling point/range	Not available	Auto-ignition temperature	Not available
Flash point	Not available	Decomposition temperature	Not available
Evaporation rate	Not available	Viscosity	Not available
Flammability (solids and gases)	Not available	voc	Not available
Upper and lower flammability/ explosive limits	Not available	Other	None known
Section 10. Stability and reactivity			
Reactivity		Does not react under the recommended storage and handling condition prescribed.	
Chemical stability		Stable under the recommended storage and handling conditions prescribed.	
Possibility of hazardous reactions		None known	
Conditions to avoid (static discharge	e, shock or vibration)	None known	
Incompatible materials		Oxidizing materials; etc.	
Hazardous decomposition products		None known	
Section 11. Toxicological information	1		
Information on the likely routes of $\epsilon$ and eye contact)	exposure (inhalation, ingestion, skin	May cause an allergic skin reaction.	Causes serious eye irritation.
Symptoms related to the physical, c characteristics	hemical and toxicological	Skin irritation, redness; Eye irritation	n, redness;
Delayed and immediate effects (chronic effects from short-term and long-term exposure)		Skin Sensitization – No data availab – No data available; Germ Cell Muta Carcinogenicity – No ingredient liste Reproductive Toxicity – No data ava — Single Exposure – No data availab — Repeated Exposure – No data ava available; Health Hazards Not Other	genicity – No data available; ed by IARC, ACGIH, NTP or OSHA ilable; Specific Target Organ Toxicity ble; Specific Target Organ Toxicity ilable; Aspiration Hazard – No data
Numerical measures of toxicity (ATE; LD50 & LC50)		CAS 34590-94-8 LD50 oral, rat 5230 mg/kg; LD50 dermal, rabbit 9500 mg/kg; CAS 57-55-6 LD50 oral, rat 21700 mg/kg; LD50 dermal, rabbit 20800 mg/kg; CAS 29911-28-2 LD50 oral, rat 1479 mg/kg; LD50 dermal, rabbit 5350 mg/kg; ATE not available in this document.	
Section 12. Ecological information			
Ecotoxicity (aquatic and terrestrial i	nformation)	No data available for the product	
Persistence and degradability		No data available	
Bioaccumulative potential		No data available	
Mobility in soil		No data available	
Other adverse effects		No data available
