

Dreame Hair Artist

High-speed Hair Dryer User Manual

dreame

Warning

To avoid accidental injuries, such as electric shock and fire, due to improper use, please read the user manual carefully before use and keep it properly for future reference.

· This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance.

· Cleaning and user maintenance shall not be made by children without supervision.

· This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety. Children should be supervised to ensure that they do not play with the appliance.

· If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

· **WARNING** Do not use this appliance near bathtubs, showers, basins or other vessels containing water.

· When the appliance is used in a bathroom, unplug it after use since the proximity of water presents a hazard even when the appliance is switched off.

· For additional protection, the installation of a residual current device (RCD) having a rated residual operating current not exceeding 30 mA is advisable in the electrical circuit supplying the bathroom. Ask your installer for advice.

· **CAUTION** In order to avoid a hazard due to inadvertent resetting of the thermal cut-out, this appliance must not be supplied through an external switching device, such as a timer, or connected to a circuit that is regularly switched on and off by the utility.

· Do not use this device in a bathtub, shower, or water-filled reservoir.

· This product is equipped with a non-self-resetting thermal cut-off safety device to prevent overheating. If the product cuts out due to overheating, please disconnect the plug from the mains supply socket and leave the product to cool.

· Do not block the air inlet and air outlet in order to avoid a hazard.

· Please avoid getting your hair caught in the air inlet when using the appliance.

· Do not touch hot surfaces, such as the air outlet, when using the appliance and immediately after the appliance is turned off.

- Do not touch any part of the plug or product with wet hands in order to avoid electric shock.
- Please unplug the hair dryer when it is not in use and before a service or repair.
- Please ensure that the power cable is not twisted or knotted when storing the hair dryer to avoid damaging the power cable.
- Please keep the power cable away from any heat sources and a place where its protection capability may be compromised.
- Do not use the hair dryer in places where aerosol (spray) products are used or where there are flammable sources.
- Do not use the hair dryer for any other purpose than drying hair, such as drying clothes or other items.
- Please use the hair dryer according to the rated power. Do not use a universal plug or other voltage converter to avoid a hazard.
- If the hair dryer is abnormal or faulty, contact the manufacturer for repair and do not disassemble it by yourself.

Product Introduction

Dreame Hair Artist High-speed Hair Dryer

Smoothing nozzle

Styling nozzle

Function Description

Gear Features

Switch/Airflow speed

Push the toggle switch up or down to quickly switch between two airflow speeds. Please ensure that the switch is in the off position before connecting the power plug.

Off (○)

Low-speed
airflow (-)

High-speed
airflow (=)

Temperature level

Briefly press the bottom button to switch between natural air, warm air, and hot air.

Press and hold the bottom button to switch to natural air and release to return to the original gear.

Natural air (○)

Outputs cool,
natural air for
styling hair.

Warm air (○)

Provides ideal
temperature for
drying to prevent
damage to hair
from overheating.

Hot air (○)

Suitable for
quickly drying
wet hair.

Nozzle Features

The magnetic nozzle is removable. The nozzle can be easily installed by aligning it with the magnetic attachment ring. The nozzle is 360° rotatable and ease to use.

Smoothing nozzle

Produces a wider airflow with a soft and gentle touch for fast drying and smoothing.

Styling nozzle

Efficiently outputs a fast, concentrated airflow for targeted hair styling.

Cleaning and Maintenance

⚠ The filter needs regular cleaning and maintenance to avoid being clogged by objects and ensure smooth air intake.

· Please ensure that the hair dryer is turned off and the plug has been removed from the power outlet before cleaning the filter.

· The inlet filter is magnetically fixed. Grab the handle and pull the filter straight down to remove it from the handle.

Cleaning and Maintenance

⚠ Do not use water to wash the stainless steel filter, otherwise a failure may be caused.

· Use tools, such as dry lint-free cloth, soft brushes, or toothbrushes, to remove any objects attached to the inlet filter and stainless steel filter.

· After cleaning, insert the inlet filter along the slot on the handle until you hear a click, which indicates that the magnet is in place and installation is complete.

Specifications

Product name	Dreame Hair Artist High-speed Hair Dryer
Rated voltage	220-240V~
Rated frequency	50/60Hz
Rated power	1400W
Product dimensions	290×80×98mm
Date of manufacture	Please see product packaging.
Standards implemented	IEC/EN 60335-1, IEC/EN 60335-2-23, EN55014-1, EN55014-2, EN IEC 61000-3-2, EN 61000-3-3
