SCIENCE CLASSROOM TABLES

– FIXED HEIGHT –

STEP-BY-STEP INSTALLATION

ATTENTION

Please unpack and assemble in an area away from children's activities. Remove all tools and excess materials from work area after assembly of unit is complete. Dispose of pallet and packaging materials in an environmentally friendly manner. If any parts are missing or damaged, please call Stevens for immediate parts replacement (1-800-350-3270). When ordering parts, give the Model Number and Color of the unit.

CAUTION!

Tables can be quite heavy.
Please use caution when handling.
Do not attempt to handle without additional assistance.

- 1 Classroom Tables come with Top, Aprons, Leg Brackets and Angle Brackets attached.

- 2 The Legs are powder coated steel tube construction, with welded Leg Tabs and Leg Bolt Studs. Nuts and washers required for attachment are mounted on the Leg Bolt Studs for shipment. The included Leveler Mounting Plate Assemblies and Levelers require attachment to Legs.

STEP-BY-STEP INSTALLATION

- 3** Press a Leveler Mounting Plate Assembly into the bottom of each Leg, with the square Mounting Plate facing to the outside. It may be necessary to tap the Assembly with a rubber mallet (*not included*) to seat it firmly into place.

- 4** Screw a Leveler into the hole in each Mounting Plate until the Leveler is fully seated.

- 5** Carefully lay the Table upside down on a clean, smooth surface.

- 6** For each Leg, remove the nuts and washers from the Leg Bolt Studs. Insert the Leg Bolt Studs through the holes in the Leg Bracket. The Leg Tabs must be flush against the outside Apron face.

- 7** Secure the Leg Studs to the Leg Bracket with the washers and nuts. Tighten nuts until Leg is firmly mounted. Repeat for each Leg.

- 8** Carefully position the Table upright. If the floor is uneven, adjust the Levelers to prevent rocking.
