Welcome to Stevens I.D.SYSTEMS®!

I.D.SYSTEMS® is the answer! A complete collection of cabinetry, storage solutions and furniture, our Made-in-the-USA products are ideal for modern learning environments.

A functional system of units that fill the need for multiple applications, I.D.SYSTEMS® lets you create unique configurations to fit your classroom, storage and office requirements.

From expertly-sized band and orchestra storage systems, to resilient science labs, customizable library configurations, to cabinet suites and secure technology charging stations, I.D.SYSTEMS® durable and well-constructed furniture will withstand the rigors of the busy education environment.

State-of-the-art manufacturing methods, paired with environmentally responsible materials create attractive, durable solutions. Appropriate for elementary, high school, college and beyond.

I.D.SYSTEMS® ...the complete solution for learning environments.

Library

CABINETS SOLUTIONS FOR LEARNING ENVIRONMENTS

Attractive

STEVENS I.D.SYSTEMS® Library furniture is available in rich woodgrains, contemporary solids and stone abstracts, with matching or contrasting worksurfaces to create an attractive space. Ideal for an educational facility or a busy municipal library, I.D.SYSTEMS® is a seamless combination of function and style.

Functional

Modular Circulation Desk Stations allow creation of unique arrangements to fit individual library needs. Starter/Adder Shelving is available in both single and double faced configurations for maximum flexibility. Choose STEVENS I.D.SYSTEMS® to equip a dynamic, flexible space with study carrels, computer stations and more. The wide range of complementary units completes a unified environment in both design and color.

Durable

Stevens has been providing cabinetry and storage solutions for more than six decades! Our quality construction begins with 3/4"-thick components with thermofused laminated faces and matching impact resistant edges. Durable laminate surface resists scuffs, spills and stains. STEVENS I.D.SYSTEMS® products are guaranteed free of defects in materials and workmanship for five years.

Easy to Install

Most cabinets come fully assembled, and Circulation Desk Stations are combined with an easy joining system. Starter/Adder Shelving assembles with a combination of wood dowels and rigid cam lock fasteners for maximum strength and durability.

I.D.SYSTEMS® Circulation Desk Stations

Available 40" and 30" high

40H

30H

Wire Management

Cords can be routed through the top and ends for maximum flexibility and are concealed within a wire management trough.

Drawers

¾" full box drawers with dowel joints and trapped bottoms. 100# capacity slides with powder coat finish.

Levelers

Heavy duty levelers are reinforced with metal bracket for maximum strength.

Concealed Hinges

Self-closing 120° concealed hinges create a crisp, clean look, with minimal invasion of interior space.

I.D.SYSTEMS® Starter / Adder Shelving

Available single and double face

High Impact Edges

Edges are 3mm high impact solid extrusion materials for greater durability.

1"-Thick Shelves

Shelving is 1"-thick with five-point deflection reduction support features and is adjustable in 1¼" increments. Also available with wire loop dividers.

Full ¾"-Thick Back

For superior strength.

6-Tumbler Locks

Optional 6-tumbler locks with dead bolt mechanism provide added security.

Precision Dowel Pin Construction

¾" material and precision dowel pin structural joinery. Composite panels from recycled and reclaimed materials.

NOTE: Tall, non-mobile units must be securely anchored to building structure.

I.D.SYSTEMS® Circulation Desk Stations

are a collection of modular units that can be configured to suit specific room layouts and library activities.

End panels are pre-drilled for attachment with reversible joiner strips (one edge matches cabinet laminate, one edge is black). Each station includes one pair of $\frac{3}{4}$ " joiner strips for combining same-height units. To attach different-height units, a $\frac{3}{8}$ " joiner strip kit is required (available separately).

For standalone use, black plugs are provided to cover the pre-drilled holes.

Joiner Strip —
Matching Edge

Joiner Strip —
Black Edge

When same-height units are placed side-by-side, there is a $\frac{3}{4}$ " gap for standard $\frac{3}{4}$ " thick joiner strips.

$\frac{3}{4}$ " thick joiner strips (two included with each unit)

When different-height units are placed side-by-side, there is only a $\frac{3}{8}$ " gap, requiring a $\frac{3}{8}$ " joiner kit (see page 32).

$\frac{3}{8}$ " joiner kit contains two $\frac{3}{8}$ " thick joiner strips

Lockers

CABINETS SOLUTIONS FOR LEARNING ENVIRONMENTS

Attractive

STEVENS I.D. SYSTEMS® Lockers are available in rich woodgrains, contemporary solids and stone abstracts to complement interior applications. Furnish student spaces, break rooms or employee centers with these stylish locker configurations.

Functional

Single, Double and Triple wide units provide proper locker quantity in the available space. Double-high designs maximize storage in minimal floor space. Space saving combination units afford storage above locker compartments.

Durable

Stevens has been providing cabinetry and storage solutions for more than six decades! Our quality construction begins with $\frac{3}{4}$ "-thick components with thermofused laminated faces and matching impact-resistant edges. Durable laminate surface resists scuffs, spills and stains. STEVENS I.D. SYSTEMS® products are guaranteed free of defects in materials and workmanship for five years.

Easy to Install

Cabinets come fully assembled. Hasps and coat hooks are factory installed. Lockers come ready to use!

Pulls

Pulls are large 5" bentwire design with powder coated white finish. Clean, sophisticated design matches other exposed hardware and is also ADA-compatible.

Padlock Hasps

Strong self-latching lock hasps and easy trigger release are standard features on locker doors. Padlock hasp offers security. Label holders accommodate a wide variety of engraved plastic or other numbering devices. (padlocks not included)

Solid Doors

3/4"-thick solid doors have 180° door swing and high impact edges.

High Impact Edges

High impact edges stand up to years of use.

Patented Five Knuckle Hinges

Proven institutional quality and strength stand up to the rigors of everyday use. Door hinges are five knuckle style, safety-tipped with non-removable pins, and allow 180° door swing for maximum access. 5mm thread-in screw bolt attachment maintains attractive appearance of face and sides.

NOTE: Lockers must be securely anchored to building structure.

Double J Hooks

I.D.SYSTEMS® formed steel double J hooks feature durable, all welded construction and powder coated nickel finish.

Precision Dowel Pin Construction

3/4" material and precision dowel pin structural joinery. Composite panels from recycled and reclaimed materials.

Mobiles

CABINETY SOLUTIONS FOR LEARNING ENVIRONMENTS

Attractive

STEVENS I.D.SYSTEMS® Mobiles are available in rich woodgrains, contemporary solids and stone abstracts to complement learning environments. Dynamic designs will provide years of use and achieve high ratings for versatility and style.

Functional

Multiple configurations of Shelf Storage, Bin/Tray Storage and Combination units fit today's educational storage environments. Vertical dividers allow independent shelf positioning on each side to maximize storage as well as add strength.

Durable

Stevens has been providing cabinetry and storage solutions for more than six decades! Our quality construction begins with 3/4" - thick components with thermofused laminated faces and matching impact-resistant edges. Durable laminate surface resists scuffs, spills and stains. Steel reinforcing channels and bolted construction provide rigidity and strength for movement over uneven floors and thresholds. STEVENS I.D.SYSTEMS® products are guaranteed free of defects in materials and workmanship for five years.

Easy to Install

Cabinets come fully assembled, with casters attached. Shelving and bins/trays are installed inside the cabinets. Mobiles come ready to use!

MADE IN THE U.S.A.

Door Catches

Heavy duty, spring-loaded door catches provide positive closure. Mobile unit doors include roller catch at both top and bottom.

Shelf Supports

High strength double pin shelf supports for heavier loading. Supports have molded-in locking tabs to retain shelves.

Patented Five Knuckle Hinges

Patented Commercial "Grade 1" five knuckle hinges are safety-tipped with non-removable pins. Hinges permit 270° door swing. Interior mountings incorporate heavy duty screw attachment with added 5mm thread-in screw bolt fasteners. Powder coated nickel finish.

Casters

Casters are bolted to steel reinforcing channels with end bolts extending through the bottom channel and panel into a cross-locking nylon insert on all four bottom corners. This stable and rigid structure withstands rolling over uneven floors and thresholds. Four large 5" swivel casters (two with tread locking brakes) installed for easy rolling and tough duty.

Vertical Dividers

Vertical dividers add strength and allow independent positioning of shelves on both sides.

6-Tumbler Locks

Optional 6-tumbler locks with dead bolt mechanism provide added security.

Pulls

Pulls are large 5" bentwire design with powder coated nickel finish. Clean, sophisticated design matches other exposed hardware and is also ADA-compatible.

High Impact Edges

Edges on doors and components have high impact extrusions for tough use areas. Edges and corners are trimmed with radius profile. Top and bottom mobile components extend beyond the cabinet body as a wrap-around bumper.

Hanger Bar

I.D.SYSTEMS® hanger bar design offers the versatility of using hangers as well as coat hooks. Durable powder coated nickel finish.

Double J Hook

I.D.SYSTEMS® formed steel double J hook features durable, all welded construction and powder coated nickel finish.

CABINETS SOLUTIONS
FOR LEARNING ENVIRONMENTS

Music

CABINETS SOLUTIONS FOR LEARNING ENVIRONMENTS

Attractive

STEVENS I.D.SYSTEMS® Music cabinetry is available in rich woodgrains, contemporary solids and stone abstracts to create an attractive learning environment. From piccolos to sousaphones, these expertly engineered and well-crafted storage systems will securely store a wide variety of instruments and accessories.

Functional

Instrument storage compartments come in a variety of sizes to store most band instruments. Additional specialized cabinets are designed to protect uniforms, store accessories and organize sheet music.

Durable

Stevens has been providing cabinetry and storage solutions for more than six decades! Our quality construction begins with ¾" thick components with thermofused laminated faces and matching impact-resistant edges. Durable laminate surface resists scuffs, spills and stains. STEVENS I.D.SYSTEMS® products are guaranteed free of defects in materials and workmanship for five years.

Easy to Install

Cabinets are shipped fully assembled. Instrument, Uniform/Accessory and Folio storage cabinets are equipped with front leveling devices for ease of installation. Mobile Folio units feature industrial grade casters and can be moved with confidence over uneven floors and thresholds.

MADE IN THE U.S.A.

I.D.SYSTEMS® Music Instrument Storage

High Impact Edges

High impact edges stand up to years of use.

Interiors

Interiors have Pearl White laminate for reflectivity and cleanability.

Scuff-Gard™ Shelf Protection

Shelves have exclusive one-piece wraparound Scuff-Gard™ shelf protection, engineered from high impact ABS with raised tread design for superior abrasion resistance. Wraparound design protects the front edge.

Padlock Hasps

Strong self-latching lock hasps and easy trigger release are standard features on Acusti-Grille and solid doors. Padlock hasp offers security. Label holders accommodate a wide variety of engraved plastic or other numbering devices. (padlocks not included)

Patented Five Knuckle Hinges

Proven institutional quality and strength stand up to the rigors of everyday music room use. Door hinges are five knuckle style, safety-tipped with non-removable pins, and allow 180° door swing for maximum access. 5mm thread-in screw bolt attachment maintains attractive appearance of face and sides.

Acusti-Grille Doors

One-piece, all-welded heavy gauge grille doors with powder coated finish.

Solid Doors

3/4"-thick solid doors with high impact edges.

NOTE: Tall, non-mobile units must be securely anchored to building structure.

**Folio Shelves**

¼" folio shelves are adjustable and removable.

Casters

Casters are bolted to steel reinforcing channels with end bolts extending through the bottom channel and panel into a cross-locking nylon insert. Four large 5" swivel casters (two with tread locking brakes) for easy rolling and tough duty.

I.D.SYSTEMS® Folio Storage

- Designs for band/orchestra and choral folios.
- Free standing and mobile units with lockable solid doors or open designs.
- ¾"-thick construction with laminated faces and high impact edges.
- Shelves have 1⅞" (48mm) spacing, with typical compartment opening of 1⅝" (42mm).
- Heavy-duty casters, bolted to steel reinforcing channels, create a stable and rigid structure, withstanding uneven floors and thresholds.

**Compartments**

Number labels can be added to identify each slot.

**Solid Doors**

¾"-thick solid doors have 180° door swing and high impact edges.

Patented Five Knuckle Hinges

Proven institutional quality and strength stand up to the rigors of everyday music room use. Door hinges are five knuckle style, safety-tipped with non-removable pins, and allow 180° door swing for maximum access. 5mm thread-in screw bolt attachment maintains attractive appearance of face and sides

Ventilation Grilles

Attractive ventilation grilles, top and bottom, enhance airflow.

Hanger Bar

Heavy chrome steel oval tubing with end sockets.

**Interiors**

Interiors have Pearl White laminate for reflectivity and cleanability.

I.D.SYSTEMS® Uniform / Accessory Storage

- ¾"-thick construction with laminated faces and high impact edges.
- Choice of lockable full solid doors or open designs in 35" and 48" widths.
- Lockable doors prevent pilferage and dust buildup, while ventilation grilles, top and bottom, enhance airflow.
- Powder coated wireform shelves allow air to circulate around hats and other stored items.
- Finished exteriors provide flexibility of arrangement.
- Shipped fully assembled, with front leveling devices for ease of installation.

I.D.SYSTEMS® Music Instrument Storage

- ¾"-thick construction with laminated faces and high impact edges.
- Exclusive one-piece wraparound Scuff-Gard™ shelves.
- Self-latching lock hasp and easy trigger release on solid and Acousti-Grille doors.
- Most configurations available Open, with Solid Doors and with Acousti-Grille doors.
- Finished exteriors provide flexibility of arrangement.
- Shipped fully assembled, with front leveling devices for ease of installation.

Select Instrument Storage Cabinets by Compartment Size or Instrument

Instrument Storage cabinets on pages 63-70 are identified with a letter code that corresponds to the charts shown below.

By Compartment Size:

| Compartment Size | Cabinet | Compartment Size | Cabinet | Compartment Size | Cabinet |
|--------------------------|---------|--------------------------|---------|--------------------------|---------|
| 8W x 15H x 18½D | A | 25½W x 38¾H x 37¾D | O | 52½W x 70½H x 37¾D | R |
| 8W x 15H x 26¾D | B,C | 25½W x 78½H x 26¾D | G | 58½W x 11¼H x 26¾D | S |
| 8W x 38¾H x 37¾D | P | 25½W x 78½H x 37¾D | M | 58½W x 70½H x 26¾D | S |

Attractive

Science furniture from STEVENS I.D.SYSTEMS® is designed for an active laboratory environment. Whether in an educational facility or a professional setting, STEVENS I.D.SYSTEMS® is an ideal addition with its combination of function and style. Science furniture is available in rich A-tech woodgrains and solid colors with contrasting Laminate, Phenolic or Epoxy worksurfaces to create an attractive learning environment.

Functional

Complete offering of Base, Wall and Tall cabinets allows custom configurations to fit your specific space needs. Worksurfaces are available in multi-cabinet lengths to avoid gaps between cabinets. Specialty pieces, such as the 12- and 24-microscope cabinets, create optimal storage for equipment and projects. Several table designs provide the instructor a clear view to the work area, with all students facing forward.

Durable

Stevens has been providing cabinetry and storage solutions for more than six decades! Our quality construction begins with ¾" thick components with A-tech surface finishes and matching impact resistant edges. A-tech surfaces meet the requirements of the Scientific Equipment and Furniture Association SEFA 8 Cabinet Surface Finish Tests. A-tech is ideal for educational and commercial laboratory environments. This durable surface is specifically designed to withstand the rigors of the lab environment and resists scuffs, spills and stains. STEVENS I.D.SYSTEMS® products are guaranteed free of defects in materials and workmanship for five years.

Easy to Install

Cabinets come fully assembled. Tables have pre-mounted apron rails. Steel legs attach with twin metal gussets for added strength and durability.

MADE IN THE U.S.A.

Eco Friendly Powder Coat Baked On Finishes

Grade 1 hinges, pulls and metal components.

Drawers

3/4" full box drawers with dowel joints and trapped bottoms. 100# capacity slides with powder coat finish.

Radius Edges and Corners

Edges are 3mm high impact solid extrusion materials.

6-Tumbler Locks

Greater security dead bolt mechanism.

Shelf Supports

Double pin shelf support with retaining tabs. Extra center back support on 36"-wide units.

Framed and Sliding Display Doors

Safety tempered glass.

NOTE: Tall, non-mobile units must be securely anchored to building structure.

Precision Dowel Pin Construction

3/4" material and precision dowel pin structural joinery. Composite panels from recycled and reclaimed materials.

Atech Surface ... a Standalone for Educational Laboratory Environments

Atech is an exclusive Stevens engineered high heat setting resin surface on composite particleboard core, embossed with a woodgrain look, available in solid colors and woodgrain patterns. It provides a non-porous, moisture-resistant facing, not susceptible to separation or delamination. Atech meets the requirements of Scientific Equipment and Furniture Association SEFA 8.0 Section 8 Cabinet Surface chemical finish testing and demonstrates performance superior to typical wood finishes on the market.

Why is SEFA 8 Testing Important?

Scientific Equipment and Furniture Association (SEFA) was formed in 1988 to provide leadership in promoting quality and safety in the design, manufacture and utilization of laboratory furniture and equipment. SEFA has grown, evolved and positioned itself as the industry authority. Using SEFA 8 compliant cabinetry in your science room or laboratory will ensure that you have the most durable finishes on the market today.

Atech Surface

Cabinet Colors

Matching exterior/interior – Open Grain finish

*Color selections shown are printed reproductions. Actual colors may vary.
 Not all designs are shown at 100% scale. Samples available upon request.*

Open Grain Finish

With a low luster patina, Open Grain features deep, linear grain patterns.

LAB CART

Open shelf cart. (2) adjustable shelves.
Includes black laminate top.
36W x 36H x 24D

84300 Z36 

84302

STORAGE CART

Double door compartment. Center divider and
(2) adjustable shelves. Includes lock and
black laminate top.
36W x 36H x 24D

84302 K36 

Casters

Casters are bolted to steel reinforcing channels with end bolts extending through the bottom channel and panel into a cross-locking nylon insert on all four bottom corners. This stable and rigid structure withstands rolling over uneven floors and thresholds. Four large 5" swivel casters (two with tread locking brakes) installed for easy rolling and tough duty.

84310

BIN CART

Open bin cart.
(24) translucent bins
(12¼Wx3Hx16¾D).
Includes black laminate top.
44W x 47H x 20D

84310 Z47 

Extra strong translucent polypropylene bins with reinforcing ribs to prevent distortion when heavily loaded. Flat bottom for easy cleaning. 12¼Wx3Hx16¾D

84312

Suites / Cabinets

CABINETS SOLUTIONS FOR LEARNING ENVIRONMENTS

Attractive

STEVENS I.D.SYSTEMS® Suites and Cabinets are available in rich woodgrains, contemporary solids and stone abstracts with matching or contrasting worksurfaces, to create an attractive environment. Maximize storage and customize space with a range of sizes in Wall and Base Modules. Add security with optional locks.

Functional

Multiple configurations of door and drawer storage fit the needs for classrooms as well as staff. Each configuration is available in multiple widths to fit your specific space. Extra deep wall cabinets accommodate even the largest binders.

Durable

Stevens has been providing cabinetry and storage solutions for more than six decades! Our quality construction begins with 3/4" - thick components with durable thermofused laminated faces and matching impact-resistant edges. Durable laminate surface resists scuffs, spills and stains. Heavy duty slides let drawers operate smoothly and trouble free. STEVENS I.D.SYSTEMS® products are guaranteed free of defects in materials and workmanship for five years.

Easy to Install

Cabinets come fully assembled, with finished exteriors. Worksurfaces include backsplash and are oversized in length and width.

CABINERY SOLUTIONS
FOR LEARNING ENVIRONMENTS

Features

Patented Five Knuckle Hinges

Patented Commercial "Grade 1" five knuckle hinges are safety-tipped with non-removable pins. Hinges permit 270° door swing. Interior mountings incorporate heavy duty screw attachment with added 5mm thread-in screw bolt fasteners. Nickel powder coated finish.

Pulls

Pulls are large 5" bentwire design with powder coated nickel finish. Clean, sophisticated design matches other exposed hardware and is also ADA-compatible.

Drawers

3/4" full box drawers with dowel joints and trapped bottoms. 100# capacity slides with powder coat finish.

High Impact Edges

Edges on doors and components have high impact extrusions for tough use areas. Edges and corners are trimmed with radius profile.

NOTE: Tall, non-mobile units must be securely anchored to building structure.

6-Tumbler Locks

Optional 6-tumbler locks with dead bolt mechanism provide added security.

Shelf Supports

High strength double pin shelf supports for heavier loading. Supports have molded-in locking tabs to retain shelves.

Precision Dowel Pin Construction

3/4" material and precision dowel pin structural joinery. Composite panels from recycled and reclaimed materials.

FOR LEARNING ENVIRONMENTS

Technology

CABINETS SOLUTIONS FOR LEARNING ENVIRONMENTS

Attractive

STEVENS I.D.SYSTEMS® Technology furniture features contemporary storage and tablet charging systems to complement any classroom, from preschool to college campus. Dynamic designs will provide years of use and achieve high ratings for versatility and style.

Functional

Our product designers understand that technology is no longer a bonus feature in classrooms...it is a necessity. Multiple configurations of Wall Storage and Mobile units fit today's educational environments. Dividers with cord management allow easy, secure storage and simultaneous charging for classroom tablets.

Durable

Stevens has been providing cabinetry and storage solutions for more than six decades! Our quality construction begins with 3/4" - thick components with thermofused laminated faces and matching impact-resistant edges. Durable laminate surface resists scuffs, spills and stains. Steel reinforcing channels and bolted construction provide rigidity and strength for movement over uneven floors and thresholds. STEVENS I.D.SYSTEMS® products are guaranteed free of defects in materials and workmanship for five years.

Easy to Install

Cabinets come fully assembled, with casters attached. Dividers and power cords (where applicable) are installed inside the cabinets. Technology units come ready to use!

I.D.SYSTEMS®

Technology

CABINETS SOLUTIONS
FOR LEARNING ENVIRONMENTS

Environmental / Sustainable Attributes

Stevens Industries, Inc., the manufacturer of Stevens I.D.SYSTEMS®, is committed to environmental/sustainable responsibility. From our well-informed choice of materials to our state-of-the-art manufacturing, I.D.SYSTEMS' final products are assured to be safe and environmentally friendly. Attributes include — but are not limited to:

Architectural Woodwork Institute (AWI):

Architectural Woodwork Institute (AWI) was established in 1954 for producers of custom millwork. Since its inception, the group has dedicated its resources to improving architectural woodwork industry standards through education and collaborative efforts by its members. AWI members offer customers the added assurance that the manufacturer is knowledgeable of, and adheres to, the industry's high standards. We're proud to be a long-standing AWI member. www.awinet.org

The Architectural Woodwork Institute Quality Certification Program (AWI QCP) has been available since 1995. This program has been recognized by architects, designers and specifiers as the authoritative source of guidance on fine architectural woodwork. It offers an increased level of consumer protection in architectural woodwork sections of construction documents and allows designers and specifiers to include a total quality management mechanism for woodwork in project documents. www.awiqcp.org

UL GREENGUARD Certification:

Stevens Industries, Inc. is proud to be one of the few casework, millwork and panel laminators to have achieved GREENGUARD Gold Certification for our products. Our high-quality laminated products meet stringent chemical emissions limits. GREENGUARD Gold Certification (formerly known as GREENGUARD Children & Schools Certification) includes health based criteria for additional chemicals and also requires lower total VOC emissions levels to ensure that products are acceptable for use in environments such as schools and healthcare, to account for sensitive individuals (such as children and the elderly). It is referenced by both The Collaborative for High Performance Schools (CHPS) and the Leadership in Energy and Environmental Design (LEED) Building Rating System. For a complete list of our UL GREENGUARD Certified products groups, visit: www.ul.com/gg Additionally, to see all of our GREENGUARD Certified products, visit: www.spot.ul.com

Forest Stewardship Council (FSC):

FSC® (Forest Stewardship Council®) certification ensures that products come from responsibly managed forests that provide environmental, social and economic benefits. FSC Trademark License Code: FSC-C014934. Ask us about our FSC products! www.fsc.org

American Institute of Architects (AIA):

Since its inception in 1857, the American Institute of Architects (AIA) has served as a resource for members and a voice of the industry. The AIA sponsors continuing education for those in the field, sets industry standards in contract documentation, and conducts market research and analysis. AIA celebrates the artistic designs of its members and recognizes their work through an awards program. www.aia.org

American Society for Quality (ASQ):

American Society for Quality (ASQ) is the world's leading membership organization devoted to quality. When ASQ says "quality" they mean best practices, continuous improvement, and tapping the full power of knowledge. www.asq.org

Construction Specifications Institute (CSI):

Construction Specifications Institute (CSI) is a national association of specifiers, architects, engineers, contractors, building materials suppliers and others involved in commercial and institutional building design and construction. The organization has 145 chapters and more than 16,000 members. CSI provides technical information and products, continuing education, professional conferences, and product shows to enhance communication among all disciplines of building design and construction, and to meet the industry's need for a common system of organizing and presenting construction information. www.csinet.org

National Association for the Education of Young Children (NAEYC):

The National Association for the Education of Young Children (NAEYC) is dedicated to improving the well-being of all young children, with particular focus on the quality of educational and developmental services for all children from birth through age 8. NAEYC is committed to becoming an increasingly high performing and inclusive organization. www.naeyc.org

Stevens Industries, Inc. is compliant with the <90ppm lead content standard under the Consumer Product Safety Improvement Act (CPSIA).

Stevens I.D.SYSTEMS® products are in compliance with the latest U.S. - EPA - Toxic Substances Control Act (TSCA) - Title VI for formaldehyde emissions.

Complies with California's Prop 65.
