BRIO™ Quick Start

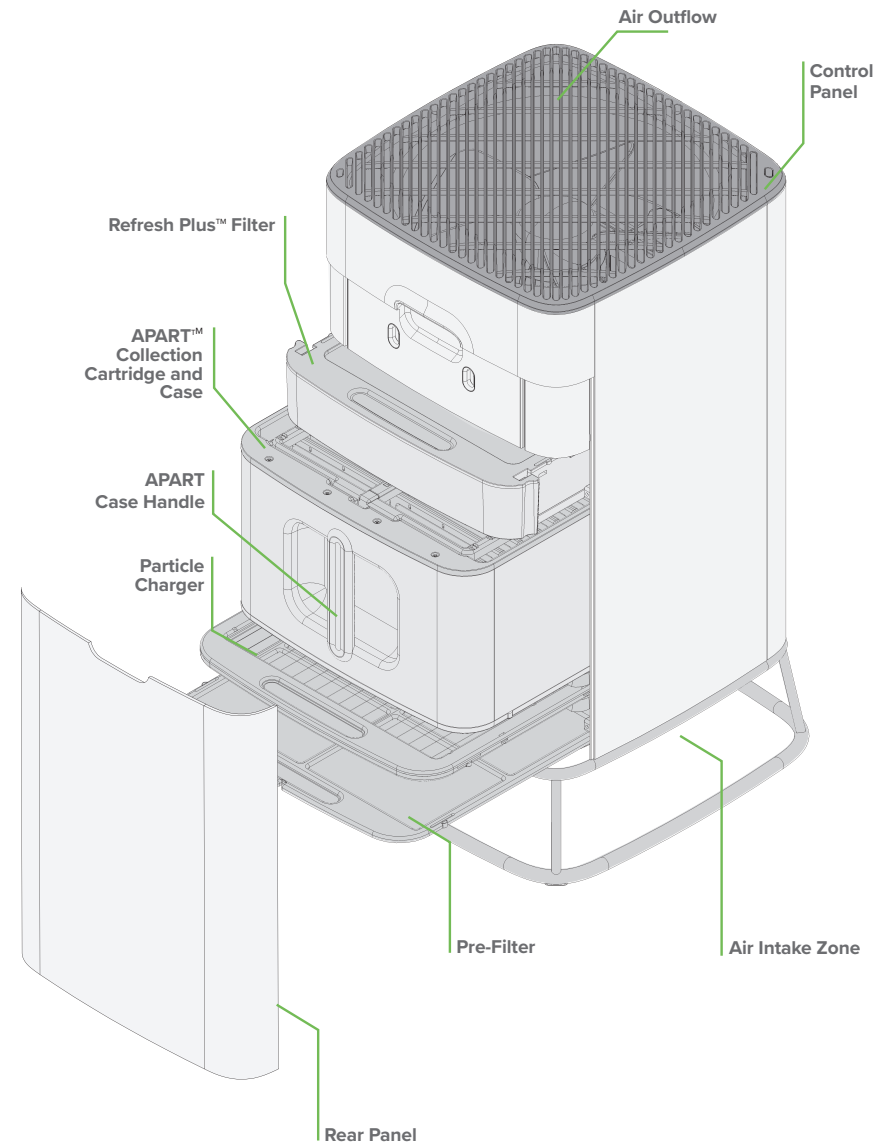

BEFORE FIRST USE ONLY:

As some movement may have occurred during shipping, follow these steps to remove and replace each component to ensure all are properly positioned. See the diagram on the opposite page for component location detail.

1. Remove protective tape on the rear panel. Remove the rear panel.
2. Remove the Refresh Plus™ Filter by pulling it outward. Reinsert the filter into the unit.
3. Remove the APART™ Case from the unit by pulling outward on the case handle. Lift the APART Collection Cartridge out of the APART Case and then reinsert. Place the assembled cartridge and case into the unit.
4. Remove the Particle Charger by pulling outward and then reinsert into the unit.
5. Remove the Pre-Filter by pulling outward and then reinsert into the unit.
6. With all components positioned securely in the unit, replace the rear panel.

BRIO™ Inside and Out

TO OPERATE:

1. Read the Important Safety Information (pages 6-7).
2. Place Brio in selected location and plug the power cord into an electrical outlet.
3. Press the POWER button to start the air purifier.
4. Press the POWER button to change the fan speed or to turn the power off. Fan speed will be indicated by control panel lights. When the power is off, all fan-speed indicator lights on the control panel will be off.

Control Panel Display

That's it! Your Brio Air Purifier is now improving your indoor air quality, trapping and removing particles and pollutants. Complete care instructions begin on page 11.

FAQs

Where Should I Place BRIO™?

If there is an identifiable source of particle pollutants, place Brio near that source. Otherwise, place Brio so it will be near the room's occupants. Brio should not be placed where curtains or other obstructions will limit the air intake or outflow.

How Often Should I Run BRIO?

We recommend leaving Brio on at all times when you are in the room. You can also leave Brio on 24 hours a day to maintain air quality.

How do I Know BRIO is Working?

Over time, you may notice particles accumulating on the APART™ Collection Cartridge. This is normal. Brio will continue operating at full effectiveness, with consistent particle removal, until the cartridge is completely full. This may take a year or longer depending on your indoor environment. When the cartridge is full, the CHECK/CHANGE indicator will light.

We also recommend using an independent, well-calibrated indoor air quality monitor as the best way to measure your indoor air quality.

For more information, please visit brioairpurifier.com/care.

Read First: Important Safety Information

Please read and carefully follow these safety warnings and use your Brio air purifier only as described in this guide.

WARNING

Safety precautions should always be used when operating this or any electrical appliance. Decrease the risk of electrocution, electric shock, injury or fire by reading and following all the warnings below.

DISCONNECT UNIT FROM POWER SUPPLY BEFORE OPENING THE REAR PANEL FOR CLEANING, MAINTENANCE OR SERVICING.

KEEP OUT OF REACH OF CHILDREN.

TO REDUCE RISK OF ELECTRIC SHOCK, INJURY OR FIRE:

- This appliance has a grounding-type plug that has a third (grounding) pin. This plug will only fit into a grounding-type power outlet. If the plug does not fit into the outlet, contact qualified personnel to install the proper outlet. Do not alter the plug in any way.
- This appliance must only be connected to a wall socket outlet matching the supply plug type and rating with the voltage of 120VAC.
- If the air purifier is damaged or operating abnormally, immediately disconnect the power and contact Brio Customer Care for service information. Do not attempt to take apart, service or repair this product yourself.

- Never run the air purifier unless it is fully assembled.
- Do not run unit without Refresh Plus Filter and APART Collection Cartridge.
- Always unplug the power cord from the electrical outlet before cleaning, inserting or removing parts, or before moving to another location.
- Do not use near extreme heat or in presence of flammable gases.
- Do not use near water sources such as a sink, shower, bath or pool.
- Do not use outdoors or in a window location.
- Do not use on wet surfaces or near steam.
- Do not get any part of the air purifier or its internal components wet. If any component does get wet, allow to fully dry before re-installing and operating.
- Do not use an adapter.
- Do not use an extension cord.
- Do not operate with a damaged cord or plug or if the wall electrical socket is loose or damaged.
- Do not plug into an outlet controlled by a dimmer switch.
- Do not use with any solid-state speed control device.
- Do not insert or pull out plug or touch unit with wet hands.
- Do not run cord under rugs, furniture or appliances.
- Do not place heavy objects on or compress the power cord.
- To unplug, grasp by the plug not the cord.
- Do not pull or carry by cord.
- Place the unit upright in a location away from the wall that allows air to move freely around, into, and out of the unit. Place on a firm, level surface at least 8" from heat sources such as ranges, dryers or heaters.
- Do not place on unstable surfaces such as a bed or chair.
- Do not block the air intake and air outlet, cover the unit or otherwise restrict the airflow in or out of the unit.
- Never insert foreign objects into air vents or other openings. Keep hair, clothing, fingers, and all body parts away from openings and moving parts.
- When transporting the air purifier, always lift from underneath.
- Do not drop the unit, as this can result in damage.
- Follow recommended periodic maintenance described in this guide.
- Use only Brio™ replacement cartridges and filters.

This product complies with the maximum allowable concentration of ozone of 0.050 parts per million by volume (ppmv) in a 24-h period.

Order replacement APART™ Collection Cartridges and Refresh Plus™ Filters online at brioairpurifier.com.

Get to Know BRIO

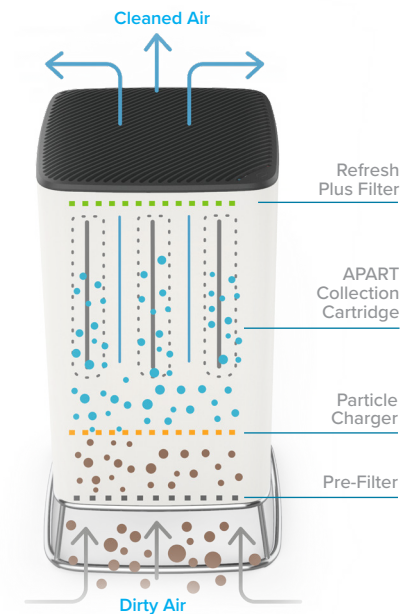

Brio uses patented APART™ Advanced Particle Removal Technology to remove pollutants from the airflow. Instead of clogging a filter, particles are trapped in the APART Collection Cartridge. Brio keeps the clean air delivery rate constant, with no drop off in airflow or effectiveness, until the cartridge is completely full and ready for replacement.

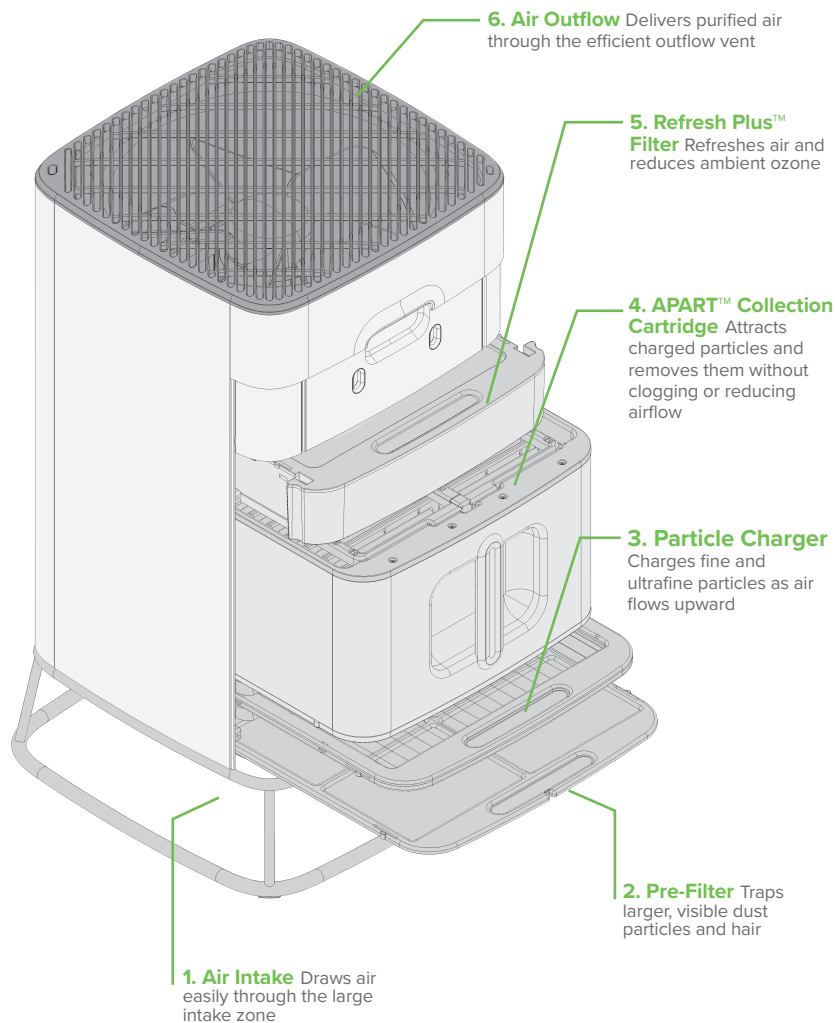

Better Indoor Air by Design

Constant Effectiveness	<ul style="list-style-type: none">• Removes damaging fine and ultrafine particles• Innovative particle collection means better airflow and clean air delivery with no clogging
Low Cost to Own	<ul style="list-style-type: none">• Long-life particle collection cartridge• Low cartridge-replacement costs
Simple and Easy	<ul style="list-style-type: none">• Simple controls for easy operation• Disposable collection cartridges and filters for quick maintenance
Safe	<ul style="list-style-type: none">• Certified ozone-safe by the California Air Resources Board• Refresh Plus™ Filter reduces ambient ozone for safer, healthier indoor air

Advanced Particle Removal Technology

BRIO's Six-Step Air Purification System

BRIO™ Care and Maintenance

Before inspecting, cleaning or following replacement steps below, turn Brio power off, unplug, and remove the rear panel. After completing steps below, replace the rear panel, plug unit in, and turn power on.

When to Change the APART™ Collection Cartridge

The high-capacity, long-life cartridge can last 12 months or more before it needs replacement. Actual cartridge life will depend on particle pollution in the room and on how often Brio is used. Please note that the APART Collection Cartridge may appear dirty long before it needs replacement. When it is full, the CHECK/CHANGE Indicator will light.

NOTE: The CHECK/CHANGE Indicator may also light if there is pet hair or other debris inside the unit which needs clearing.

Control Panel Display

If the Check/Change Indicator Lights

1. Turn Brio off, unplug, and remove the rear panel.
2. Inspect and clean/dust the Pre-Filter and Particle Charger if needed, following instructions on Page 12.
3. Remove and re-insert the APART Collection Cartridge and Case.
4. Replace the rear panel, plug Brio in, and turn power on.

This sequence should reset the CHECK/CHANGE Indicator and the light will go off. If the CHECK/CHANGE Indicator lights again a short time after following the above steps, please replace the APART Collection Cartridge following the instructions on Page 13.

NOTE: If the CHECK/CHANGE Indicator lights soon after inserting a new, unused APART Collection Cartridge, please contact Brio Customer Care.

Periodic Inspection and Cleaning Steps

It is normal to hear an occasional snapping sound, which may mean that a larger piece of dust or debris has collected on the Particle Charger. If you hear frequent snapping sounds, please see How to Inspect and Clean Pre-Filter and Particle Charger below.

If the CHECK/CHANGE indicator is lit and you hear frequent snapping sounds, the APART™ Collection Cartridge may be ready for replacement.

It is unlikely, but if you still hear snapping sounds after replacing the APART Collection Cartridge, additional servicing may be needed. Please turn off the machine and contact Brio Customer Care for assistance.

How to Inspect and Clean Pre-Filter and Particle Charger

Pre-Filter

Permanent,
Reusable

Remove and inspect the Pre-Filter. Using a soft, damp or dry cloth, gently remove any visible dust or debris. If extremely dirty, the Pre-Filter can be hand rinsed with water. Air dry completely before use.

Re-insert, ensuring it is securely positioned, facing up.

Inspect monthly;
clean as needed

Particle Charger

Permanent,
Reusable

Remove and inspect the Particle Charger. Gently dust if needed with included cleaning brush or a soft, dry cloth.

Re-insert, ensuring it is securely positioned, facing up.

Inspect monthly;
clean as needed

How to Replace APART™ Collection Cartridge and Refresh Plus™ Filter

APART Collection Cartridge

Disposable

Replace every 12 months

Using the blue handle, pull the APART Case out of the unit, lift the APART Collection Cartridge out of the APART Case and discard.

Using the included cleaning brush or a soft cloth, remove any visible dust accumulation from the underside of the APART Case.

Insert a new APART Collection Cartridge into the APART Case, ensuring it is aligned between guides and securely positioned. Re-insert the APART Case into the unit, ensuring it is securely positioned, facing up.

Refresh Plus Filter

Disposable

Replace every 24 months

Remove the filter and discard.

Replace with a new filter, ensuring it is securely positioned, facing up.

Brio Air Purifier Two-Year LIMITED WARRANTY

This Brio™ air purifier is warranted by Agentis Air LLC to be free from defects in materials and workmanship for two years from the original purchase date. Should the product have a defect in materials or workmanship, we will repair or replace it without charge to you. For warranty service, email us at warranty@agentisair.com

This warranty is dependent on your use of genuine APART™ Collection Cartridges and Refresh Plus™ Filters, available at brioairpurifier.com. This warranty does not cover damage caused by accident, misuse or any use other than as intended and described in this User Guide or damage resulting from failure to maintain and clean this product as specified in this User Guide. This warranty does not cover physical abuse, chemical exposure, water damage, damage caused by acts of God, the use of voltages other than indicated on the label displayed on this product or servicing of this product by anyone other than Agentis Air LLC. This warranty is non-transferable and applies only to the original purchaser of the Brio air purifier. This warranty does not cover the APART Collection Cartridge or Refresh Plus Filter. This warranty requires proof of purchase with purchase date or purchase registration on our website within 60 days of purchase at brioairpurifier.com.

APART Collection Cartridge and Refresh Plus Filter LIMITED WARRANTY

The APART Collection Cartridge and Refresh Plus Filter are warranted to be free from defects in materials and workmanship for one year from the original purchase date. Agentis Air LLC will replace a defective Refresh Plus Filter or APART Collection Cartridge at no charge to you. This limited warranty covers normal use only.

ALL EXPRESS AND IMPLIED WARRANTIES FOR THIS PRODUCT, INCLUDING IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED IN DURATION TO THE WARRANTY PERIOD, AND NO WARRANTIES, WHETHER EXPRESS OR IMPLIED, WILL APPLY AFTER THIS PERIOD.

Some states do not allow limitations on the duration of implied warranties, so the above limitation may not apply to you. While this warranty gives you specific legal rights, you may also have other rights in your state.
