

# BIO-6

## biodegradable ink degradant & stain remover

### DESCRIPTION

Bio-6 is a water soluble ink degradant, stain remover and degreaser for use on textile and graphic inks. Formulated using biodegradable and organic compounds that make Bio-6 environmentally acceptable, safe and highly effective. Product begins to work on contact by immediately penetrating, dissolving and removing plastisol, UV, water based, conventional/solvent based, enamel, epoxy and vinyl inks from screens. Bio-6 has non-caustic stain removers built-in which aggressively remove image stains without harming the mesh. Bio-6 is non-foaming and is great in recirculating tanks or machine applications where it may be diluted up to 1:1 with water.

### ADVANTAGES

- Powerful ink degradant
- Biodegradable and drain safe
- Very good stain removal
- Emulsion & Mesh safe
- Non-toxic, non-flammable and non-corrosive
- Low cost per usage

### DIRECTIONS

Always card excess ink from the screen prior to beginning reclaim. Spray the ink side of the screen in a light, even pattern. Agitate the ink with a brush or cloth. Rinse with a cold water, low volume, high pressure rinse. For best results, use on dry screens.

### TYPICAL PRODUCT PROPERTIES

Appearance ----- Clear, amber liquid  
Odor----- Unscented  
pH -----N/A  
Flash Point ----- >210°F  
Specific Gravity ----- 1.01  
Weight, per U.S. gallon -----8.4 lbs.  
Stability ----- Excellent  
DOT Shipping ----- Non-hazardous

### AVAILABLE PACKAGE SIZES

55 Gallon Drum -----#01656-D5505  
30 Gallon Drum -----#01656-D3004  
5 Gallon Pail ----- #01656-P5010  
4x1 Gallon Case -----#01656-C4201
