

PC-205

press & screen wash

DESCRIPTION

PC-205 is a fast acting press and screen wash designed for textile screen printing applications. This press and screen wash easily opens up image areas on the screen during the production run. Excellent for press side wash up, color changes and as a pre-step to color changes using plastisol inks without harming the screen emulsion. PC-205 dries fast and to help keep production down time to a minimum. It protects the screen fabric from deep stains or ghost images from the image print and will allow screens to completely reclaim once that step is necessary.

ADVANTAGES

- Super fast evaporating and drying
- Does not leave an oily residue
- Non-hazardous & non-flammable
- Mesh safe
- Emulsion safe
- Very high solvency

DIRECTIONS

Spray or wipe the affected area with PC-205 on the ink side of the screen. Continue to wipe the area, turning the towel frequently until dry. Before resuming printing, always test your print quality on test materials to ensure all residue has been eliminated.

TYPICAL PRODUCT PROPERTIES

Appearance	-----	Clear, colorless liquid
Odor	-----	Citrus / Slight solvent
pH	-----	N/A
Flash Point	-----	122°F
Specific Gravity	-----	0.81
Weight, per U.S. gallon	-----	6.8 lbs.
Stability	-----	Stable
DOT Shipping	-----	Non-hazardous

AVAILABLE PACKAGE SIZES

55 Gallon Drum	-----	#01680-D5505
5 Gallon Pail	-----	#01680-P5010
4x1 Gallon Case	-----	#01680-C4201
