

Vanita
COSMETIK

—
CATALOG 2020

Inspired by Italian glamor, Vanita offers a range of cosmetic pigments designed to enhance the natural beauty of every woman. Simple to use and compatible with Fitzpatrick's classification, our pigments have been part of the face they want to embellish.

Vanita was created by using our knowledge and expertise in the field of permanent makeup

industry. Building on our know-how and expertise in the permanent makeup, we have developed a wide range of high-end plant based pigments. Their liquid texture gives them the ability to penetrate the skin in a superior fashion and, therefore, have a longer hold.

*Note that pigments designed for the lips lose 50% of their intensity when healing is complete. However, their very liquid texture gives them better penetrating power, which reduces the number of passages during implantation. This helps decrease swelling and therefore healing is faster.

LIPS | NUDE COLLECTION

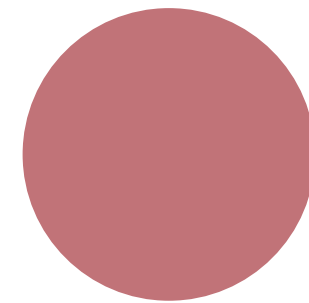

Our new collection of Nude lip pigments is perfect for creating natural and fuller lips. Ideal for those who want to enhance the natural color of their lips.
