Mega Power Stand Blender

L18-P552U

SAFETY WARNING

Read all instructions prior to using the appliance and its accessories.

Carefully observe and follow all warnings and instructions. This unit contains electrical connections and moving parts that potentially present risk to the user.

Be careful handling, the blender the blade is very sharp.

Turn off Before replacing accessories or accessible parts, which move during operation, and before assemble and disassembling while cleaning before cleaning or maintain, turn off the appliance and disconnect it from the mains by pulling the power cord from the power socket.

Turn the appliance OFF, then unplug the appliance from the outlet when not in use, before assembling or disassembling parts, and before cleaning. To unplug, grasp the plug by the body and pull from the outlet. NEVER unplug by grasping and pulling the flexible cord.

Before use, wash all parts that may contact food.

DO NOT use this appliance outdoors. It is designed for indoor household use only.

DO NOT operate any appliance with a damaged cord or plug, or after the appliance malfunctions or is dropped or damaged in any manner. This appliance has no user-serviceable parts. If damaged, contact Joyoung for servicing.

To protect against the risk of electric shock, DO NOT submerge the appliance or allow the power cord to contact any form of liquid.

DO NOT allow the cord to hang over the edges of tables or counters. The cord may become snagged and pull the appliance off the work surface.

DO NOT allow the unit or the cord to contact hot surfaces, including stoves and other heating appliances.

ALWAYS use the appliance on a dry and level surface.

DO NOT allow children to operate this appliance or use as a toy. Close supervision is necessary when any appliance is used near children.

This appliance is NOT intended to be used by people with reduced physical, sensory, or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

Keep hands, hair, and clothing out of the container when loading and operating

DO NOT operate the appliance with an empty container.

DO NOT microwave any containers or accessories provided with the appliance,

NEVER leave the appliance unattended while in use.

Be careful when pouring hot liquid into the blender. Sudden hot steam may eject the hot liquid.

DO NOT process dry ingredients without adding liquid to the Joyoung blender. They are not intended for dry blending.

NEVER operate the appliance without lids and caps in place.

DO NOT attempt to defeat the interlock mechanism. Ensure the container and lid are properly installed before operation.

Before operation, ensure all utensils are removed from containers. Failure to remove utensils can cause containers to shatter and potentially result in personal injury and property damage.

DO NOT open the pitcher's pour spout cap while blender is operating.

If you find unmixed ingredients sticking to the sides of the pitcher, stop the appliance, remove the lid, and use a pusher to dislodge ingredients.

NEVER insert your hands into the pitcher, as you may contact one of the blades and experience a laceration.

DO NOT attempt to remove the container or lid from the motor base while the blade assembly is still spinning. Allow the appliance to come to a complete stop before removing lids and containers.

Recommendation

- For proper ice cube crushing, observe the maximum permitted volume of 1000mL.
- Minimum quantity of 500g is necessary when processing nuts or making butter, nuts must be kept within the blade working area by pushing them by stamper during the nut butter process.
- Never use the pusher individually without the lid.

Clean and Maintenance

Do not use coarse and aggressive cleaning agents (eg sharp, objective, scrapers, diluting agents or other solvents)

Clean drive unit with a soft and wet cloth with a little detergent.

Pitcher, lids, and plug are dishwasher safe. Ensure the pusher and lid are removed from the container before placing in the dishwasher.

To clean the blade, pour about 0.5 liter of clean water in the container, select the pre-set program "-clean", and turn on the appliance . In case of larger contamination of the knife , repeat the procedure several times, or 1 cup of water, add small amount of detergent and switch the blender on for 1 minutes.

TROUBLESHOOTING

Please read the following before calling your service center.

Problems	Solution
Motor doesn't start or knife doesn't rotate	Make sure the unit is plugged in.
Countop blender suddenly turn off while running	Unplug the blender and allow the blender to cool down for about 30 minutes If you are still unable to start your machine, please contact customer service.
Food is unevenly chopped	Either you are put too much food at once, or you are not pulsing properly. Reduce the amount of food in the cup.
Countertop blender has a burning	There may be burning smell when using the blender for the first few times. This is normal.
Food is too finely chopped or too watery	The food has been over processed. Use short pulses for best results.

If your Countertop blender should malfunction or fail to operate, please check the following:

- Is the countertop blender plugged in?
- Turn off the countertop blender for 10-15 seconds, then turn it back on. If the countertop blender still does not start, allow it to cool for 30 minutes before turning it back on.
