

Plank Lounger

Eric Pfeiffer

The Plank Collection was designed for relaxed outdoor living. All pieces are structured around a frame of white powdercoated steel with weather-treated pine slats in a natural, whitewashed, black-stained or gray-stained finish. The Plank Lounger recalls a traditional Adirondack chair with its deep, low-slung seat, but cuts a decidedly more modern profile. Horizontal wood slats finished with softly-rounded edges attach to a lithe metal frame. The Lounger is available with or without arms.
