Clickit Sport Plus

Categories: car harness, walking harness, anxiety relief, pet travel, pet safety

Five Star Safety: Clickit Sport car harness is packed with state-of-the-art technology that makes it light and easy to use without sacrificing safety. Sleepypod's patented Infinity Loop webbing design works with a broad, padded vest to distribute and reduce damaging forces that can cause injury.

There are three points of contact to reduce forward and lateral movement in the event of a collision or sudden stop. Crash-tested at [U.S.](#), [Canadian](#), and [E.U.](#) child safety standards, then independently tested and certified with a 5 Star safety rating from the Center for Pet Safety. Outside of the car, it can be used as a walking harness. Reflective strips offer improved visibility at night.

Clickit Sport has been proven in independent testing by the [Center for Pet Safety](#) to be one of the safest car harnesses in an auto collision, earning the highest possible Five Star rating.

Eligible for replacement through [Sleepypod's Crash Replacement Program](#).

What's in the package: Clickit Sport harness, S-Clip accessory, Buckle Shield accessory

Instructional video: <https://bit.ly/instructionsClickitSport>

Downloadable images for media, retailer, and distributor use: <https://flic.kr/s/aHskU25uNX>
