FAQs:

Q: Are extra large dog seat belt harnesses comfortable for my dog?

A: Look for harnesses with breathable mesh lining and padded chest plates to ensure comfort during long journeys.

Q: Can I use a regular collar with a seat belt tether?

A: No, using a collar is not recommended as it can cause neck injuries during sudden stops. Harnesses distribute pressure evenly across the chest, offering better safety.

Q: How do I train my dog to get used to the harness?

A: Introduce the harness gradually, allowing your dog to get comfortable wearing it at home before using it in the car. Reward positive behavior with treats and praise.
