Martingale Calming Harness

Mar 21, 2024

Sleepypod presents the **Martingale Calming Harness for dogs and cats**. The two-in-one harness is designed for anxiety relief and walking. A breathable mesh harness wraps around the body like a reassuring hug, helping to soothe a pet's fear and anxiety. The design incorporates a martingale feature to provide control of the dog or cat when used as a walking harness while helping to prevent escape. A martingale strap will gently cinch around the pet's torso when a leash pulls the D-ring.
