

3M VHB TAPES

These high-strength, double-sided, acrylic foam tapes let you quickly and easily create a long-lasting bond between a variety of materials.

FAST & EASY

Strong adhesion to a wide range of substrates, they're easy to use and quickly bond on contact.

HIGH STRENGTH

Creates a permanent bond providing high strength and long-term durability.

WATERTIGHT

Core conforms to irregular surfaces and creates a permanent seal against water and moisture.

HIDDEN FIXING

Replaces mechanical fasteners, such as screws and rivets, to create virtually invisible fastening.

4950

- White (1.1mm)
- Excellent shear performance

GPH

- Grey (0.6/1.1/1.6mm)
- Excellent temperature resistance

5952/5962

- Black (1.1/1.6mm)
- Adhesion to powder coated surfaces

9473

- Transparent (0.25mm)
- Virtually invisible fixing

OPEN A WORLD OF NEW POSSIBILITIES

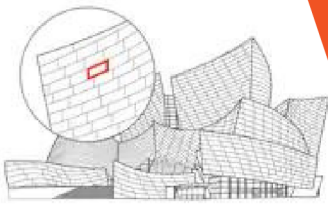

Use 3M VHB tapes in ways you never thought imaginable.

CAPTURE EXTREME FOOTAGE

Weather resistance | Durability | Seal out water & dirt

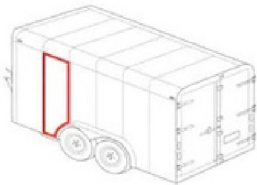

Assemble the components of your extreme-action camera for impact resistance and durability. Rain, sun, wind, heat or cold, 3M™ VHB Tape is weather-proven to stand the test of time.

DESIGN BEAUTIFULLY

Aesthetics | Design flexibility | Strength

Create a seamless facade with fast application of virtually invisible fastening for a permanent bond that expands your range of material options.

RIVET-FREE FOR A SMOOTHER RIDE

Strength and Durability | Light weighting | Aesthetics

Eliminate rivets and screws that can loosen, rattle and leak. Keep sides smooth for decals while damping vibration for a quieter ride.

MAKE SMART DEVICES SLEEKER

Join multiple materials | Die-cut for precision | Shock resistance

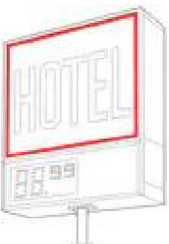

Use die-cuts for a precise fit within devices and when bonding back covers, lenses, screens and more for a thin, sleek smart device.

BOND MULTIPLE MATERIALS

Damp vibration | Join multiple materials | Assemble quickly

For easy assembly of home appliances, use 3M™ VHB Tape to securely join materials like glass and metal without traditional fasteners.

STREAMLINE MANUFACTURING

Eliminate spot welds | Heat resistance | Increase throughput

3M™ VHB Tape can take the heat. With short-term temperature resistance up to 450°F, materials can be bonded prior to powder coat or liquid painting processes.
