

The LG pre-plumb package allows for simple ordering of the heat pump, pre-plumb hot water cylinder and accessories.

The heat pump is required to be sized in accordance with MCS regulations (where applicable) and the hot water sized in line with the property's hot water demands.

The items supplied in the accessory pack are shown below, with the purchasing of these items optional.

What is included in the accessories pack:

- 3 x Anti-Vibration Feet & Fixings
- 1 Pair of 750mm Flexible Hoses
- Ball Valve Strainer & Isolators Pack
- Thermax DTX Concentrate (10L)
(One for 5kW, 7kW & 9kW units and two for 12kW, 14kW and 16 kW units)
- Isolator Switch - 32A for 5kW, 7kW & 9kW units and 40A for 12kW, 14kW and 16 kW units
- ASHP Generation Meter
- 18 Litre Expansion Vessel (12kW, 14kW and 16kW Units only)
- EPH Programmable Thermostat

Pallet delivery (UK mainland only)

Please refer to your quotation for the specific model selection.

The Product Code determines the size of the heat pump and hot water cylinder – see example below:
