

## ICE ICE Baby

### Top Tip

Why not add in additional sensory materials to explore? We added our frozen 'dinosaur eggs' into their nest of leaves (salad) and hay.

### Ingredients:

Water  
Suitable toys

### Method

#### Frozen Dinosaur Eggs

You can have hours of fun playing with this ice activity. Simply add a small toy to an empty balloon, fill with water and freeze. When you are ready to play, remove the balloon off your frozen toy and then you can explore the freezing and thawing. It's a fab way to cool down on a warm day too!
