

BEAM

AUTO GLASSWASHING DETERGENT

DESCRIPTION

BEAM is an alkaline liquid detergent formulated for use in all glass washing machines.

BEAM is a low foaming detergent with the ability to remove stains and bring the glasses back to sparkling condition, even in harsh water conditions.

FEATURES & BENEFITS

- **BEAM** contains sequestering agents to eliminate precipitation of hardness salts and discolouration of glasses.
- **BEAM** contains a drying agent to assist the fast shedding of water to give sparkling glassware.
- **BEAM** is low foaming leaving glasses clean and free of residue.

APPLICATION

BEAM is best dispensed through Challenge Chemicals Australia control dispensing equipment. Contact our sales team for details of dispensing systems.

WARNING

BEAM is corrosive. Avoid skin and eye contact

FIRST AID

If poisoning occurs contact a doctor or poisons information centre. PH 13 11 26. If swallowed do not induce vomiting, give glass of water and seek medical advice. If skin contact does occur remove contaminated clothing and wash thoroughly with water. For eye contact, irrigate with water for 15 minutes and if irritation persists seek medical advice.

PACKAGING

BEAM is available in 5, 15 and 25 litre containers.
