

# OVEN SAFE

## NON CAUSTIC OVEN, GRILL & HOT PLATE CLEANER

### DESCRIPTION

**OVEN SAFE** is a non caustic, heavy duty degreaser and cleaner formulated for the rapid cleaning of ovens, grills, hot plates and other cooking appliances.

It is a highly concentrated blend of new aged materials for removal of grease and baked on carbon deposits.

### BENEFITS

- NON caustic
- Fast effective cleaner and degreaser
- Extra Heavy Duty formulation

### USES

- Heavy Duty oven and grill cleaner.
- Heavy duty hot plate cleaner and degreaser.
- Removal of baked on greases and carbon deposits
- BBQ cleaner.

### APPLICATION

Foam or spray **Oven Safe** to warm but **NOT HOT** surface. Spread **OVEN SAFE** evenly over the surface, allow contact time of a few minutes and remove with a scraper, cloth or scourers. For heavy deposits re-treatment may be required or scouring with a griddle pad. Wash with water after cleaning.

Vertical surface cleaning. **OVEN SAFE** may be applied by a foam nozzle gun, swab or paint brush. Allow to stand before wiping or rinsing residues away.

### WARNING

Avoid skin and eye contact. Wear rubber gloves when using this product.

### FIRST AID

If poisoning occurs contact a doctor or poisons information centre. PH 13 11 26. If swallowed do not induce vomiting, give milk or water and seek medical advice. If skin contact does occur remove contaminated clothing and wash thoroughly with water. If eye contact occurs irrigate with water for at least 15 minutes and seek medical attention immediately.

### PACKAGING
