

TIE DYE WAX MELT RECIPE

CANDLE SHACK

WHAT YOU WILL NEED

[1x Clamshell - 4 Cavity](#)

[5g Marine Fragrance Oil](#)

[45g RCX Melt Blend](#)

[1 pinch of Bekro Dye - 78/3297 - Turquoise](#)

[1 pinch of Ice Mica Powder](#)

[1 pinch of Iridescent Mica Powder](#)

CANDLE SHACK

THE STEP-BY-STEP PROCESS

STEP 1 Melt your wax in a double boiler or microwave.	STEP 7 Pour a dash of the dyed wax into the squares of the clamshell.
STEP 2 Once fully melted, add the fragrance.	STEP 8 Straight away, put another dash of undyed wax into the clamshell pouring very slowly. Do not fill past halfway up the height of the squares.
STEP 3 Split the mixture into half into two containers.	STEP 9 Give your clamshell a little shake, which will help the two waxes to slightly blend without mixing them fully.
STEP 4 In one of the containers, add the dye and mix until fully incorporated. Leave the other container undyed.	STEP 10 Wait a while until the poured wax starts to dry.
STEP 5 Add the mist mica powder to the dyed wax and mix until fully incorporated.	STEP 11 Repeat steps 7 to 10 until your clamshell is full.
STEP 6 In the undyed wax, add the iridescent mica powder and mix until homogeneous.	STEP 12 Leave your wax melt to cure for 48 hours before use.
