

Layout Guide for Les Paul®

This template can be printed off and used as a layout guide, to check that the harness will fit your guitar.

Ensure your printer is set to 100% scale, and re-check the measurements against the 100mm scale bar below.

Fits most genuine Gibson Les Pauls. Will fit most Epiphone Les Pauls with hole size and knob adjustments as below.
Please check hole layout for ALL models.

Hole Size: 9.52mm (3/8")

Cavity Depth: Minimum 32mm (1.26")

Pot Length: Long Shaft 19mm (3/4") - Can be used in Epiphone with included height adjustment nuts

Knob Size : Split Shaft 24 Spline US SPEC

Switch Tip: Metric M3.5 x .6 thread
