

HOW TO MIX FOAM PARTY SUPPLIES GEL SOLUTION

THINGS THAT YOU'LL NEED:

5 Gallon Bucket w/ Lid

1-Gallon of Foam Gel

Drill or Hand Mixer

WHAT TO DO:

Step 1: Remove tamper seal and unscrew the cap from your Gallon of Foam Gel.

Step 2: Ensure the 5 Gallon Bucket is clean and free of debris, then pour your 1 Gallon of Foam Gel into the 5 Gallon Bucket.

Step 3: Add 4 Gallons of Warm or Hot water to the 5 Gallon Bucket. (The hotter you can get the water, the easier it mixes)

Step 4: Mix Water and Gel in Bucket with either your drill or hand mixer until Gel dissolves.

Step 5: Seal Bucket with Lid and store in a cool, dry area for 12 to 24 hours prior to use.

Congratulations you have now made Foam Party Supplies Foam Gel into Ready to Run Solution.
