Re: File # 20160823-4

Thank you for providing us with the details of your Canadian diamond.

Through the details you have provided and the research we have conducted, we are able to authenticate the representation that the diamond with diamond identification number (DIN) WHITE MAPLE + MP = R20605 = GIA120736121 is Canadian. The stone has the following attributes:

DIN # WHITE MAPLE + MP + R20605 + GIA120736121
Shape: RB
Colour: E
Clarity: VVS2
Weight: 1.03

We traced your diamond from you to a Canadian mine and all steps have been accounted for in the process.

We applaud you for your decision to purchase a Canadian diamond and hope that you enjoy your Canadian diamond with the full knowledge that it meets all the criteria under the Canadian Diamond Code of Conduct.

Thank you.

Sincerely,

Jennifer Hillard, President
Canadian Diamond Code Committee (CDCC)
