

Size guide – Bracelets

The guide is intended to help you correctly identify the size of a bracelet.

For a correct measurement it is necessary to keep in mind the following:

- Correctly print the guide on A4 paper and check that the print options under "Page Size" indicate "none". To check that the "Bracelet Size Guide" has been printed correctly, check with a ruler that the sample below measures 2 centimeters or 1 inch.

- Cut out the wrist gauge. Cut an opening along the dotted line and insert the tip of the gauge. Tighten until the gauge fits snugly around yours (not too tight or too loose).

Centimeters to inches conversion table

| Centimeters | Inch | Centimeters | Inch |
|-------------|------|-------------|------|
| 10 | 3,94 | 18 | 7,09 |
| 11 | 4,33 | 19 | 7,48 |
| 12 | 4,72 | 20 | 7,87 |
| 13 | 5,12 | 21 | 8,27 |
| 14 | 5,51 | 22 | 8,66 |
| 15 | 5,90 | 23 | 9,06 |
| 16 | 6,30 | 24 | 9,45 |
| 17 | 6,69 | | |
