

Features

- 9" high resolution super wide LCD touch screen mirror monitor with rubber clip-on mirror mount for simple and secure installation, suitable for all vehicles with a rear-view mirror
- Dual channel recording with 1080P full high definition front dash cam and 1080P high definition rear dash cam provides clear crisp videos at the front and rear of the vehicle
- 120-degree wide-angle front and 110-degree rear camera lens reduces blind spots
- Automatic reverse trigger displays a reverse image and parking gridlines when reverse gear is engaged to assist with reverse parking
- The live streaming function enables the monitor to display rear vision while driving, ideal for vehicles with limited rear vision
- Built-in G-Sensor detects an impact and securely saves the video footage on the micro SD Card separate from the continuous loop files
- The seamless cycle loop recording function continuously records in an indefinite loop without stopping, constantly overwriting the oldest file with the newest video
- Includes 16GB Micro SD Card and supports Micro SD Card class 10 up to 128GB (sold separately)
- Includes a 5.4m rear camera cable with trigger wire to connect the rear cam to the monitor
- GRV90EXT 3m extension cable is also available if extra length is required for installation in longer vehicles such as; utes, trucks and vans (sold separately)
- GUNIHWC Hard Wire Kit available for connection via vehicle fuse box instead of using the included accessory socket power adaptor (sold separately)
- It also includes USB lead, mounting screws, 3M adhesive, mirror protector pads and rubber mounting clips
