

TECHNOLOGIES

High Efficiency -
Low Impedance

He-Li technology

High efficiency / Low impedance amplifier without switching power supply, for a performance next to ideal.

2 Side 2 Sound

2S² (2 Sides / 2 Sounds) design

Provides the ability to select between Down-Firing positioning to increase the low frequency extension and Up-Firing install to obtain more punch and definition.

Sub Smart Plug

SSP (Sub Smart Plug) terminal block

Provided with a Plug&Play connector to be able to disconnect the box easily and safely.

Dynamic Bass Tracking

Dynamic Bass Tracking

DBT monitors the input signal in real time by detecting in advance the peaks which, if not processed, will bring the amplifier / subwoofer system into uncontrolled distortion, when it is pushed to maximum power.
