

## TECHNOLOGIES

High Efficiency -  
Low Impedance

### He-Li technology

High efficiency / Low impedance amplifier without switching power supply, for a performance next to ideal.

2 Side 2 Sound

### 2S<sup>2</sup> (2 Sides / 2 Sounds) design

Provides the ability to select between Down-Firing positioning to increase the low frequency extension and Up-Firing install to obtain more punch and definition.

Sub Smart Plug

### SSP (Sub Smart Plug) terminal block

Provided with a Plug&Play connector to be able to disconnect the box easily and safely.

## Dynamic Bass Tracking

### Dynamic Bass Tracking

DBT monitors the input signal in real time by detecting in advance the peaks which, if not processed, will bring the amplifier / subwoofer system into uncontrolled distortion, when it is pushed to maximum power.
