

## CHARGING THE CAMERA AND TAG

### 1. Assemble the Power Cord

**Plug the USB end into the wall adapter.**

One end has a USB, while the other a mini USB.

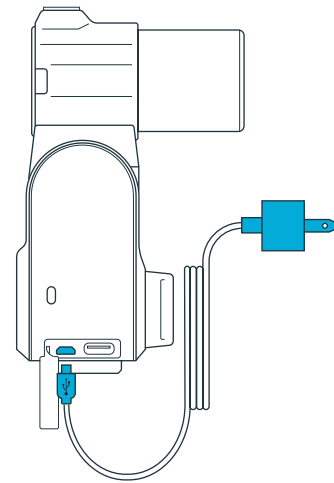

### 2. Charge your Camera

**Plug the mini USB end of the power cord into the Camera Base.**

The mini USB connects to the smaller charging port on the left, under the rubber cover.

You will see a red light at the top of the touch screen on the back of the Camera confirming that the Camera is charging.

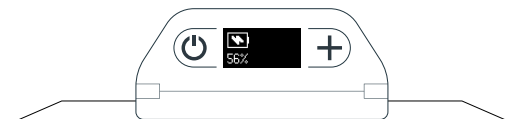

### 3. Charge your Tag

**Confirm that the Tag is docked into the Tag charger on the front of the Camera Base.**

The Tag will charge automatically when the Camera is charging.

The Tag needs to be off while charging.

### 4. Charge Time

**Fully charge the Camera and Tag before use.**

This will take about 4 hours.

Charging time varies based on your wall adapter rating.
