

## START AND STOP LIVE STREAMING

### WARNING

---

All live streams are viewable to the public on the SOLOSHOTapp.

### REQUIREMENTS

---

#### A. Connected to Wi-Fi.

Internet Speed Requirements:

- A minimum of 5 Mbps upload speed
- Stream quality depends on the internet connection speed.

#### B. Camera Base is calibrated.

C. Regardless of recording resolution, the live stream video is compressed at 720p30.

## 1. Live

---

Tap the LIVE button.

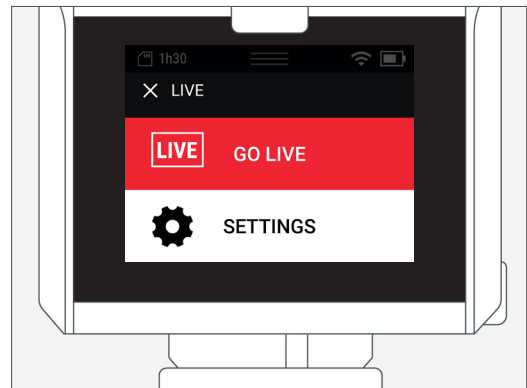

## 2. The Live Action Sheet

---

The **live streaming action sheet** allows you to begin live streaming or change live stream settings.

Tap **GO LIVE** or **SETTINGS**.

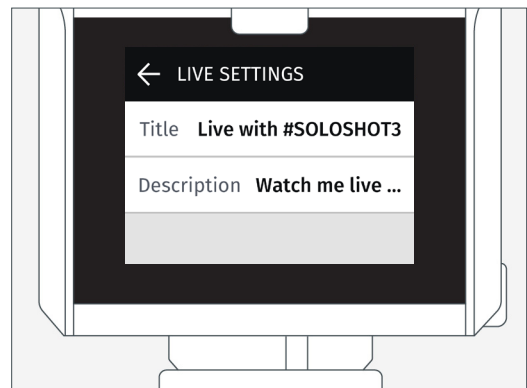

## 3. Settings

---

**Add a Title and Description to your stream.**

This information will appear on your stream in the SOLOSHOTapp.

**If the Title is unchanged,** it will default to “Live with #SOLOSHOT3.”

## 4. Go Live

---

**Select Go Live**

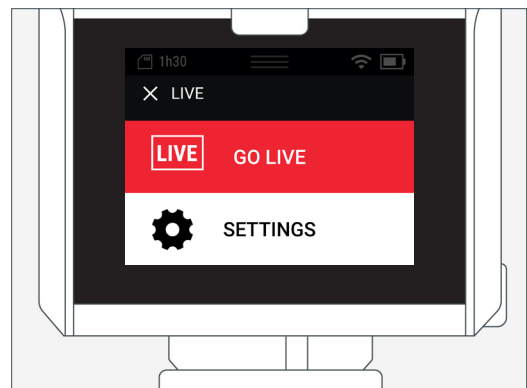

The Camera Base will attempt to connect to the SOLOSHOT network.

**Live Stream Started**

While live stream is active, the track app interface shows the LIVE highlighted in red.

**Live Stream Failed**

Check your internet connection and try again.

## 5. Ending a Live Stream

---

To stop live streaming, tap the LIVE button, then END LIVE.

## The App | Terms & Conditions

---

Your live streams appear on the **SOLOSHOTapp** and [app.soloshot.com](http://app.soloshot.com). Be sure to download the SOLOSHOTapp on the App Store or Google Play!

By streaming, you agree to all terms and conditions including privacy as described at [soloshot.com/terms](http://soloshot.com/terms).
