

MOVING SOLOSHOT3

About Moving the SOLOSHOT3

It is possible to reposition the SOLOSHOT3 at any time after it has been calibrated and is actively tracking.

Simply pick up the SOLOSHOT3 (and tripod) and move it to a new location.

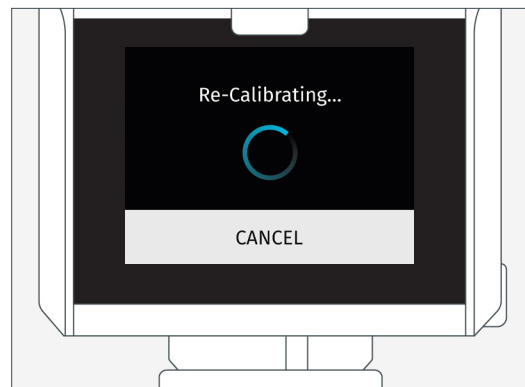

Recalibration

If tracking is active

Picking up the SOLOSHOT3 will automatically pause tracking and recording.

Once stable, the SOLOSHOT3 will recalibrate and resume tracking and recording.

If tracking is paused

The SOLOSHOT3 will recalibrate once the user resumes tracking.
