Quality and innovation

NOBLEX is a manufacturer of innovative sports optics for hunting, ornithology and water sports. As the direct successor to VEB Carl Zeiss Jena and DOCTER Optik, our current portfolio of high-performance optics combines classic products such as binoculars and rifle scopes with modern optoelectronic devices in the field of water sports. Robust, seawater-proof and weather-resistant, they were developed for the maritime sector to meet the needs of sailors and water sports enthusiasts alike.

Let yourself be inspired by the innovative sports optics products from NOBLEX!

NF 7x50 C advanced

With integrated bearing compass

For the first time ever, the NOBLEX NF 7x50 C compass binoculars combines modern maritime design with the robust and reliable Porro prism system, which has become indispensable in maritime applications due to its solid construction. Even in stormy seas, the large fluid-filled 50 mm compass consistently indicates true north, and reliable bearings can be made with its finely scaled reticle. The implementation of special glass convinces with a high transmission, even in low light situations such as at dusk.

Model	7x50 C advanced
Optical system	Porro prism
Compass	Ø 50 mm
Reticle*	yes
Watertightness	IPX7
Exit pupil	7.1 mm
Twilight number	18.7
Close distance	10.0 m
Field of view (at 1,000 m)	148 m
Weight	1,450 g
Article number	50462
Price (MSRP)	€ 699.–

Seaworthy Optics

Compass display
with eyepiece reticle

Regardless of whether you are a charter skipper, boat owner or regatta professional – good and reliable binoculars belong in the hand luggage of any good sea captain. A seaworthy long-range optic that you can rely on, even when the sea is rough, visibility is poor and navigation is more demanding. The new NOBLEX NF 7x50 C of the inception line fulfills all of these requirements, which is further characterized by its robust overall construction and a precise 30 mm compass.

NF 7x50 C inception DLRG 2.0

Saving lives

Integrated compass – ideal for determining distances

The Noblex NF 7x50 C inception DLRG 2.0 binoculars, with their robust construction, reliable seaworthy optics and precise 30 mm compass, are a must-have for every boater. It was specially developed for the German Lifesaving Society (DLRG) which has been optimised for water rescue teams and maritime task forces. Whether you are a professional rescuer or an enthusiastic boater, these binoculars provide clear vision and essential navigational aids for safe navigation while at sea.

NM 7x42 C

Navigation at a new level

NEW

Easy estimation of distances and precise orientation at all times – all this is now possible in a playful manner, and with just one hand. The new NOBLEX NM 7x42 C compass monocular is an extremely handy and lightweight device, and an ever-available companion for navigating when you really need it. The integrated compass and detailed markings make it easy to determine the distance to objects far away. Whether you are on the high seas or in mountainous landscapes, this high-precision navigator will reliably show you the way. The optical brilliance, wide field of view and 7x magnification packed into a compact housing, make the NM 7x42 C an extremely versatile companion for your adventures while on the move.

Model	7x42 C
Magnification	7x
Ø Lens aperture	42 mm

NM 7x42 C DLRG

Saving lives

In the DLRG version, the monocular comes with a specially adapted reticle to meet the requirements of the German Life Saving Association. This not only guarantees the proven quality and functionality of the monocular, but also the reliability of the optimized reticle to correctly estimate distances in water rescue situations. You can count on NOBLEX when it comes to dependable equipment for your demanding needs.

NF 8x56 advanced

The hunting binocular for twilight

NEW

These sophisticated binoculars are specifically designed for hunting in twilight and offer hunters an unparalleled viewing experience. The advanced product line combines outstanding features, including high transmission in difficult viewing conditions, superior resolution and strong contrast. As a result, the binoculars provide a clear and detailed image, even in waning light. With an impressively large field of view of 126 meters (137 yards), hunters can see all the action in even the most challenging situations. An outstanding feature of the Noblex 8x56 advanced is the open design of the comfort bridge, which enables safe and, if necessary, one-handed operation. Eyeglass wearers will also appreciate the twist-out eyecups, which ensure a comfortable fit and provide a pleasant viewing experience.

Model	8 x 56 advanced
Optical system	7.0 mm
Twilight number	21.1
Close distance	3.5 m
Field of view (at 1,000 m)	126 m
Watertightness	IPX7
Weight	1,280 g
Article number	50599
Price (MSRP)	€ 649.-

NF 10x42 R advanced

Precise laser rangefinding

The NF 10x42 R of the advanced line offers the user high-performance optics with multi-coated lens elements and a large field of view. The integrated laser rangefinder determines the safe distance to game up to 1,200 meters – and to more reflective objects, up to 2,300 meters. With a simple push of a button, the eye-safe Class 1 laser measures to within 1 meter accuracy in just 0.3 seconds. While in scan mode, the distance of moving objects is measured continuously. The reading is taken from the very bright red OLED display that is mirrored in the center of the field of view and can be easily read against a dark background. When needed, the brightness can be adjusted in six levels.

Model	10 x 42 R advanced
Optical system	Roof prism
Exit pupil	4.2 mm
Laser class	1
Measuring range	5 – 2,300 m
Field of view (at 1,000 m)	105 m
Watertightness	IPX7
Weight	980 g
Article number	50589
Price (MSRP)	€ 1,099.–

With bright
OLED display

NF 8x56 inception

Even big in the twilight

With the maximum lens diameter of 56 mm, the NF 8x56 inception is the brightest binocular in the NOBLEX range. Specially optimized for poor lighting conditions such as in twilight, it offers a unique viewing experience. The binoculars are filled with nitrogen to prevent them from fogging up on the inside when the outside temperature changes. Eyeglass wearers will appreciate the specially designed oculars.

Model	8 x 56
Optical system	Roof prism
Exit pupil	7.0 mm
Twilight number	21.1
Close distance	2.5 m
Field of view (at 1,000 m)	111 m
Watertightness	IPX7
Weight	1,145 g
Article number	50593
Price (MSRP)	€ 399.–

NF 8x42 and 10x42 inception

The powerful outdoor binoculars

The new inception binoculars are ergonomic and chic in design. The high-quality glass used in combination with the abrasion-resistant multi-coating of the lens surfaces ensure an optimal view. The twist-out eyecups have been specially developed for eyeglass wearers and, together with the large field of view, provide the optimum basis for observing animals and nature.

Model	8 x42	10 x42
Optical system	Roof prism	Roof prism
Exit pupil	5.2 mm	4.2 mm
Twilight number	18.3	20.5
Close distance	2.5 m	2.5 m

Weight	570 g	570 g
Article number	50583	50588
Price (MSRP)	€ 220.–	€ 239.–

NF 8x25 and 10x25 inception

The constant companion for recreation

Lightweight and compact – this is how the new NOBLEX pocket binoculars of the inception line present themselves. With impressive optics and a choice of 8 x or 10 x magnification, they are ideal for use when travelling, hiking, bird watching or as the perfect second pair of binoculars for outdoor or recreational use.

Model	8 x25	10 x25
Optical system	Roof prism	Roof prism

Weight	295 g	295 g
Article number	50332	50342
Price (MSRP)	€ 165.–	€ 175.–

NF 8x42 and 10x42 vector

Experiencing nature with a view

The binocular models with a 42 lens aperture impress with their functional design. An open bridge connects both halves of the binoculars. The binoculars can be held comfortably with one hand and the focusing mechanism can be operated at the same time thanks to the "handle through". The robust, water pressure-tight and lightweight housing offers maximum protection for the internal optics and mechanical components. The top optics guarantee an impressive viewing experience with brilliant, sharp-edged and high-contrast imaging.

Model	8x42 vector	10x42 vector
Optical system	Roof prism	Roof prism
Exit pupil	5.3 mm	4.2 mm
Twilight number	18.3	20.5
Close distance	2.5 m	2.5 m
Field of view (at 1,000 m)	115 m	105 m

Weight	670 g	680 g
Article number	50582	50587
Price (MSRP)	€ 389.–	€ 419.–

NF 8x56 vector

Pure joy to watch

The binoculars of the vector series are designed for demanding users in the areas of sports, outdoors, hunting and nature observation. Perfect handling with ABS rubber armouring, fast, silent focusing via the center wheel. Experience exciting observations with breathtakingly brilliant image impressions of excellent sharpness, reflection-free and in lifelike colors over the entire field of view. Even in poor visibility conditions and at dusk, the view remains clear and bright. The complex multi-coated lenses and BAK-4 prisms as well as an anti-reflective coating on the prisms ensure extremely high light transmission.

Model	8 x 56 vector
Optical system	Roof prism
Exit pupil	7 mm
Twilight number	21.2
Close distance	2.5 m
Field of view (at 1,000 m)	114 m
Watertightness	IPX7
Weight	1,145 g
Article number	50592
Price (MSRP)	€ 469.-

NS 8-24x50 ED

The observation telescope in mini format

The new NOBLEX spotting scope is unique in its compact dimensions. The varifocal eyepiece guarantees infinitely variable observations from 8x to 24x magnification. With the spotting scope resting on a stationary place or mounted on a tripod, the observer can see details in nature that would have remained hidden to the naked eye. The abnormal partial dispersion glass ensures better correction of the individual colours and delights the observer with brilliant visual enjoyment, even at greater distances.

Model	8-24x50 ED
Field of view (in degrees)	2.4-5°
Field of view (at 1,000 m)	42-88 m
Exit pupil	2.1-6.2 mm
View	angled
Ø Tripod connection thread	¼ inch
Watertightness	IPX7
Weight	530 g
Article number	50240
Price (MSRP)	€ 379.-

NS 20–60x80 ED

Powerful over large distances

The NOBLEX NS 80 spotting scope offers excellent magnification for long-distance observations. The variable 20–60x magnification and 80mm three-lens system allow exceptional detail even at long distances. The spotting scope's fluorite glass ensures high resolution and colour neutrality, while the mobile phone adapter enables easy digiscoping. This makes the NS 80 ideal for water sports enthusiasts, providing clear and accurate views of distant targets such as buoys, boats or birds on the water.

Model	20–60x80 ED
Field of view (at 1,000 m)	38–17 m
Exit pupil	4.0–1.3 mm
Twilight number	69.3–40.0
Close distance	6.5 m
Watertightness	IPX7
Weight	1,420 g
Article number	50242
Price (MSRP)	€ 549.–

NR 1000 inception

Laser rangefinder

Accurately determine large distances. Every golfer, architect or hunter faces this challenge. The new, laser-supported NOBLEX rangefinder reliably and precisely determines distances of up to 1,000 meters at a deviation of just ± 1 meter using a travel time measurement system. By means of a red OLED display, the reading is reflected within the field of view and can be clearly seen even against a dark background. Even with its 6x magnification, it can be used as a simple observation tool, which can easily replace the need to carry additional binoculars. Everything is “packaged” in a very compact, pocket-sized housing.

Model	6x21
Laser class	1
Measuring accuracy	± 0.1 m
Exit pupil	3.3 mm
Field of view (at 1,000 m)	126 m
Twilight number	11
Measuring range	5–1,000 m
Weight	161 g
Article number	50250
Price (MSRP)	€ 375.–

Born in Germany: From the south of Thuringia

For centuries, porcelain, glass, ceramics and highly refined optical products have been manufactured in Thuringia. This is why we feel especially committed to these German values and continue the tradition on site in Eisfeld.

10 years warranty

Service is our top priority. This is even ensured for the long term, evidenced by spare parts that are still available for earlier **DOCTER** and **ZEISS JENA** brand products. In terms of sustainability and resource conservation, an optical service or repair of an older product is often worthwhile.

NOBLEX E-Optics Partnerships
