STARS & SIGNS

SAPPHIRE, VIRGO'S BIRTHSTONE, ATTRACTS GOOD FORTUNE AND SPIRITUAL INSIGHT.

BY KATHARINE MERLIN

VIRGO

AUGUST 24–SEPTEMBER 23

It's time to get started on new plans and projects, but be ready to engage in some tricky negotiations. Saturn in your work angle prompts you to look at all the options with new eyes and to honor your highest principles. Toward the end of the month you'll begin to see results, but with Mercury changing direction on the 27th, it won't be until later in October that details will begin to cohere.

CHOPARD, CHOPARD.COM/US

LIBRA

SEPTEMBER 24–OCTOBER 23

Your ruling planet, Venus, encounters a few harsh aspects this month, but even if close relationships demand patience and perspective, with Mars entering your sign, you'll be increasingly motivated. Pursue your most creative plans and be bold. The kind of harmony and good feeling you thrive on will triumph over the odds as September ends.

SCORPIO

OCTOBER 24–NOVEMBER 22

The Sun and new Moon in the precise sign of Virgo are telling you to plot a new course. Venus enters your sign on the 10th, intensifying your charm, and with aggressive Mars in a hidden angle after the 15th, be prepared to strategize and plan your moves. Breaking free from worn-out emotional patterns is also a theme at month's end.

SAGITTARIUS

NOVEMBER 23–DECEMBER 21

You can accomplish a great deal this month, but be prepared for some glitches. Jupiter's current position enhances your ability to inspire others, but be ready to be an example of what you're advising and promoting. Venus in a hidden angle of your chart after the 10th also indicates that you should carve out some private time for close connections.

CAPRICORN

DECEMBER 22–JANUARY 20

Reach out to those at a distance this September, and be an adventurer. When Mars enters Libra on the 15th, you'll receive a jolt of energy that propels you forward—but try not to overdo it. The 17th is a time to forge new associations, and if your vision of your future is changing, it's all for the good. Greater clarity arrives by month's end.

AQUARIUS

JANUARY 21–FEBRUARY 19

You can get a better grip on your financial future this month if you consult experts and do some research to find fresh solutions. Be ready to face harsh truths, but also to embrace new plans. Your visibility is on the rise after the 10th, and your prescience will become increasingly apparent to all. A personal worry promises to lift as September winds down.

PISCES

FEBRUARY 20–MARCH 20

If someone makes you feel attacked and defensive near the 2nd, speak up and clear the air. The new Moon happens in your relationship angle on the 7th, and it brings change and renewal. You're feeling uncertain about what you want this month, so give yourself permission to take your time until you're ready to make commitments.

ARIES

MARCH 21–APRIL 20

The first week of September is full of ups and downs, and relationships will demand more finesse than usual. Work projects are in the stellar spotlight, and once Mars enters Libra on the 15th, demands seem to be pouring in. If others get bogged down, be ready to take the helm and swing into action. You can write your own ticket by the 30th.

TAURUS

APRIL 21–MAY 21

Try to get as many details in place as possible before Mercury goes out of sync on the 27th. Emotions will be volatile this month, and if others are blowing hot and cold, focus on your goals and don't overreact. The full Moon of the 20th is the perfect time for you to reach out and spread your influence. You'll end up accomplishing more than you expect, so don't stress out.

GRAFF (\$95,000), GRAFF.COM

GEMINI

MAY 22–JUNE 21

In September, lifestyle and family matters are highlighted. And Mercury, your ruler, is traveling through a highly social and creative part of your solar chart. Whatever you take on near the full Moon of the 20th is bound to have a positive effect all around. Don't be overly concerned if your ideas clash with others, and be ready to move in new directions as the month winds down.

CANCER

JUNE 22–JULY 22

Others may be touchy early this month, but this is a time to speak up. By mid-month you're entering a lively if somewhat stressful period, and Mars in Libra accents home-related matters and personal pressures. If you find yourself at odds with others near the 22nd, make an effort to be more flexible than you feel. Jupiter favors financial gains.

VANLEES DIAMONDS, VANLEES.COM

LEO

JULY 23–AUGUST 23

You should feel motivated to get a grip on finances as the Sun and new Moon travel through the precise sign of Virgo, and Venus entering Scorpio challenges you to come to terms with partners and let go of grievances. Try to complete as much as you can before the 27th, because it will become more difficult to tie up loose ends after that.
